## DETAILS FOR BOYS' WEEK ARRANGED BY ROTARIANS

Every Member Is Ready for His Part in Program; Educator Speaker

Completion of plans for Boys' Week work, which commenced this morning in all the schools, marked the Glendale Rotary club's meeting yesterday noon at the Chamber of Commerce banquet hall. Everything was announced and each and every one made ready for his part in the program.

The Rotarians also discussed plans of procedure during the International Convention which comes to Los Angeles in June. Visitors introduced included Fred L. Meneley and C. E. Jones of Glendale and Dr. Frank C. Touton of Berkeley, who is with the department of education. The latter spoke briefly on Glendale Union High school and paid high compliment to its faculty, curriculum, etc. He was introduced by Principal George U. Moyse.

For two years Dr. Touton acted as high school inspector in the state of Wisconsin and he considers the opportunity for the pupils here to be far superior.

**Greater Opportunities**  
The high school idea is growing by leaps and bounds, he told his hearers. There are now 18,000 such institutions of learning with 2,000,000 students enrolled in the United States, he said.

"You California boys and girls are a splendid lot of young people," Dr. Touton stated, Chicago newspapers notwithstanding. "The opportunities along vocational lines are much greater than they are in the middle west and I am glad to find that you people of Glendale consider your children the greatest asset in the community and are providing so well for them."

Richardson D. White, superintendent of city schools, reported that the Rotary club now has eight crippled children following special courses of study and it was agreed that this work would continue through the summer.

## Apartment House Is Attracting Attention

The apartment house that is now under construction at the corner of East Windsor road and South Glendale avenue will, it is declared, be a very beautiful addition to that section of the city. The owner, George E. Bradbury, who also originated the plans, is personally supervising the construction work, which is being done by day labor. The building is of one story, Spanish mission design, and will cover 5522 square feet of floor space. The exterior will be stucco finish, with tile roof, with a beautiful patio across the front with brick tile floor. The interior arrangement will be strictly modern, with hardwood floors throughout, and will have many new features of convenience.

The building will contain approximately forty rooms, to be divided into eight apartments. The cost has been estimated at \$30,000, exclusive of furnishing. This is the first apartment house of this particular type to be built in Southern California, and is attracting much attention among builders, the plans having been copied by investors at two beach cities.

Mr. Bradbury, who is now making his home at 723 North Maryland avenue, will occupy one of the apartments as soon as they are completed. Two families from Long Beach have leased two others. The playground is furnished with modern equipment, for children, who will not be barred from these homes, and the two-step radio phones in each apartment are added attractions.

Mr. Bradbury, who came west from Philadelphia two years ago for a short trip, has never returned east. He located in Long Beach, but has disposed of all his investments there as he is confident that Glendale has a greater future, and he sees unusual possibilities here for people in his business of designer and builder.

## Golden Wedding Date Celebrated at Dinner

Mr. and Mrs. H. L. Vredenburg were the guests of honor at a family dinner party given last night at the home of their daughter, Mrs. H. C. Frost, 657 Patterson avenue, in celebration of their golden wedding anniversary. Mr. and Mrs. Vredenburg came to Glendale about two and a half years ago from New Jersey and have been making their home with their daughter.

Those present included Mr. and Mrs. H. L. Vredenburg, Mrs. H. J. Vredenburg, Miss Dorothy Vredenburg, Miss Helen Vredenburg, Mr. and Mrs. J. B. Burn, Mrs. Benjamin Watson, Mr. and Mrs. H. C. Frost and Master H. Lockwood Frost. During the evening music by Miss Dorothy Vredenburg, Miss Helen Vredenburg, Miss Helen Vredenburg and Mrs. J. E. Burn, all three of whom are granddaughters of Mr. and Mrs. Vredenburg, was enjoyed. Decorations of golden poppies were used throughout the house.

## Half-Dozen Eggs in One Order Presented By This Glendale Hen

Lots of eggs—item to this. Cuckoo—a Rhode Island Red hen—belonging to T. C. Arbuthnot of 634 North Maryland avenue, seemed flustered by the sunshine Tuesday afternoon.

Yep, she kicked up an awful ruckus after two days of inactivity during the rain.

An investigation caused by the cackles revealed that Cuckoo had laid an egg.

Some size to that hen fruit, too, which was brought to The Glendale Evening News office. It was 9 inches around the long way and 7 1/2 waist measurement, and weighed 4 1/2 ounces.

Again the sun shone Wednesday and Cuckoo tried to repeat the performance, but it was too much for every day. She laid a large egg, alright, yet it could not compare with the other.

And somebody broke the shell, which showed it had two yolks. Which makes you wonder how many yolks the other one has. Cuckoo won't tell.

## Measure Would Bar Sidewalk Merchants

Removal of all displays and advertising signs from the sidewalks throughout the city, excepting those within twelve inches of the building line is contemplated in an ordinance presented to the city council by Councilman Dwight W. Stephenson last night.

Councilman S. A. Davis declared his opposition, saying that Glendale has not reached the stage where "everything must be swept from the sidewalks."

"The business men should be encouraged, not legislated against," declared Councilman Davis. "I will vote against this measure when it comes up for passage."

Councilman Stephenson declared: "I believe the real business men will be in favor of the law. If a business man is progressive and upstanding, I feel sure he will want all 'sidewalk merchants' regulated."

It is probable the ordinance will be voted upon next Wednesday night.

## Miss Shula Crawford Married; His Name Is?

Who is he? That is what a number of the friends of Miss Shula Crawford are asking today. Miss Crawford has been employed for several years with the MacBain Grocery company of 634 East Broadway, until yesterday, when she told friends over the telephone that she was not continuing her work there. When Mrs. G. H. Hall of 414 East Broadway, sister of Miss Crawford, returned home yesterday she found a note stating that Miss Crawford had been married and was on her honeymoon. Hence the question, "Who is he?"

## 'Persian' Dinner to Be Served to Guests

Mrs. Margaret W. Monkman and Mrs. Vivian A. Kothe of 309 North Cedar street will entertain with a "Persian" dinner Saturday night. Their guests will include Mrs. Antonio Melville, Charles Melville and Mr. and Mrs. William Barry, all of Los Angeles. Mrs. Melville, the guest of honor, is a well known resident of the artists' colony of Los Angeles. For many years she was a resident of London, England, where she pursued her art studies under some of the world's renowned masters.

## Dr. Frank C. Touton Inspects High School

Dr. Frank C. Touton of the department of education, University of California, visited Glendale Union High school yesterday on the annual inspection trip. He conferred with the faculty after school until 5:30 o'clock and he assured the school officials they had a choice group of teachers this year and he is very much pleased with the work done by this Class A school.

## E. L. Sylvester and Wife in City Again

Mr. and Mrs. E. L. Sylvester of Los Angeles were in this city Thursday visiting with former friends and neighbors and trying to recognize some of the old landmarks. Mr. and Mrs. Sylvester, who resided here about nine years ago, state that the growth of the city during that time has been nothing short of phenomenal.

## Mr. and Mrs. Doughty Move Into New Home

Mr. and Mrs. D. S. Doughty, recently of Hollywood, have just moved into their new home, which has been completed at 121 South Royal drive, Eagle Rock. Mr. Doughty is engaged in the real estate business at 730 East Colorado boulevard, Eagle Rock. In the last five days he reports having closed five real estate deals in this city.

## BUILDING PERMITS PUBLIC INVITED TO FOR MAY REACH FORMAL OPENING OF NEW STORE

Construction Work Continues Brisk; Total for Year to Date Is \$2,604,234.

The first ten business days of May brought applications to the city hall for \$126,425 worth of building permits, according to E. G. Spaulding, supervisor of this municipal department. The total for the year, so far, was \$2,604,234 this morning.

Permits have been issued recently to the following:

Cook and Gibbons, 5 rooms and garage, 1265 South Adams street	4,000
Walter B. McLaughlin, 6 rooms, 119 South Adams street	4,000
Dr. Riley Russell, 5 rooms and garage, 129 South Carr street	3,500
B. W. Sherwood, 6 rooms, 712 North Kenwood street	3,500
Goodman and Lewis, alterations, 212 West Broadway	3,000
Joséphine M. Strong, 4 rooms, 340 North Louise street	2,000
H. C. Hanson, 2 rooms, 304 East Harvard street	1,200
Don G. Mitchell, 2 rooms, 1332 Glenwood Road	600
S. L. Cline, storage room, 631 East Broadway	500
Edward Gould, store, 739 East Colorado street	400
V. M. Backus, garage, 1709 West Fourth street	225

## Glendale Is Growing! Canine Hotel Enlarged

Another hotel for Glendale! That is, a local hotel is to be enlarged immediately. It is located on North Verdugo Road near the reservoir and is sited at Ye City Point.

Upon complaint of Col. J. D. Fraser, chief of police, that the municipal lodging house for stray "pooches" was somewhat inadequate and that prize pooches were obliged to sleep two in a room and that the lobby was becoming somewhat crowded he was authorized last night by the city council to have the accommodations increased at once.

Two additional dog catchers are to be employed, also. These will be hired as soon as they can be found. Col. Fraser remarked this morning that it was no easy job to select "dog chasers" with the necessary technical training. They do not need to be college graduates, although the chief says that will be no bar. One qualification is that they must provide their own automobile in which to do their dog collecting and another is that they must be willing to work for about \$80 a month. He did not say whether or not they would be expected to wear suits of armor.

## Shakespeare Section Meeting Place Changed

On account of the illness of the mother of Mrs. William Hunter of 115 East Lomita avenue, the opening of the Shakespeare section of the Tuesday Afternoon club, of which Mrs. A. H. Montgomery is curator, and which was to have been held at that place on Monday, May 15, will be held at the home of Mrs. George Cribbs, 32 West Patterson avenue, with Mrs. F. S. Card as hostess.

Mrs. Edwin Cavanah will give vocal numbers and the program will also include piano selections by Miss Alma Geiger.

## Local People Attend Grand Army Meeting

Mrs. Allena Roberts, accompanied by Mrs. Gertrude Griffin and sons Jim, Jack and Dan, Mrs. Agnes Richardson and Mrs. Pearl Moore attended the annual convention of the departments of California and Nevada of the G. A. R. and affiliated organizations at Riverside yesterday. Mrs. Moore and Mrs. Richardson were delegates to the convention from Mary Jane Gillette Tent No. 18, Daughters of Veterans. A number of members from the local tent were in attendance at the convention.

## American Legion to Hold Meeting Tonight

The regular weekly business and social meeting of Glendale Post No. 127, American Legion, will take place tonight at the Legion hall at 610 East Broadway. It is expected that definite plans will be announced regarding the arrangements for the second quarterly "get together" banquet, which is scheduled to take place in the Chamber of Commerce building on Friday evening, May 26.

## E. C. Pendroy Extends Cordial Bid to Visit Establishment on Saturday Night

The sheer summer styles—Ah, midday's curiosity is aroused! They are to be seen tomorrow night in Glendale at the Pendroy Department store opening from 7 to 11.

Amid colorful music, the fanfare of a community and the joy of it all there will stand out the styles, the new creations which midday will wear.

Pendroy's opening, after all is said and done, is going to be called an achievement. It is going to be one of the many memorable events in this city's life.

Not because it is a bigger store, or a better store or the like, but a happy combination of factors are going to create for it a great patronage that will build the business done by others.

**Specials Are Promised**  
For instance, with those summery things, the buyers were very fortunate in going to the eastern markets at an opportune time—when the selection was very large and the price most reasonable in almost every line. Specials are promised that will keep the trade at home and that is the long-felt need in local merchandising.

This is not taken to mean, however, that any seconds or goods other than standard, nationally advertised lines, will be found in the Pendroy departments. Oh, no. E. C. Pendroy states that "we are here to give the people of Glendale a modern department store, built by quality goods at medium prices, backed by advertising. What he seeks is the confidence of the people in an investment of a quarter million of dollars.

"I want to personally extend a hearty welcome to everybody in Glendale to attend our formal opening tomorrow evening and get acquainted with our experienced department managers. Look over the stock. Continued on Page 17)

## Catherine Evans Is Hostess on Birthday

Catherine Evans, daughter of Mr. and Mrs. W. E. Evans of 333 North Orange street, entertained ten of her little girl friends at a party yesterday in celebration of her ninth birthday anniversary. The children were taken by automobile to the Flint-ridge Country club, where they enjoyed playing games on the lawn. Later in the afternoon refreshments were served in the tea room.

The tables were decorated in yellow and blue flowers with yellow and blue candy baskets. In the center of the table was a birthday cake with California poppies and nine lighted candles.

The guests included Doris Hanna, Martha McCourt, Ruth Tower, Alice Ayars, Doris Holt, Betty Hagood, Doris Stamps, Barbara Stamps, Geraldine Phillips, Catherine Evans, Mrs. A. W. Tower, Mrs. L. A. Phillips and Mrs. W. E. Evans.

## Ground Breaking for Church Home Tonight

Ground will be broken tonight for Glendale's new Congregational church.

The ceremonies will be preceded by a get-together meeting of members of the congregation. At 6:30 o'clock dinner will be served by ladies of the church.

The full moon should make the ground-breaking ceremony very impressive, according to Rev. C. M. Calderwood. He announced this morning that a number of reservations have been made for the dinner, which will be the last to be served in the present church.

Contractor E. D. Yard of 646 North Jackson street, who is a member of the Congregational building committee, yesterday purchased the present church building for \$575. He is to have it moved away at once and excavations are to be commenced within the next two weeks for the new \$80,000 church edifice.

## Mrs. J. P. Lampert Is Made Class President

At the meeting of the Sisterhood class in the parlors of the First Methodist church yesterday the following members were elected as officers for the ensuing year:

Mrs. J. P. Lampert, 200 East Dryden street, president; Mrs. W. A. Maxwell, 327 West Harvard street, vice president; Mrs. L. P. Clwyer, 947 North Louise street, secretary; Mrs. A. E. Laas, 317 West Lomita avenue, assisting secretary; Mrs. J. L. Delaney, 354 West Elk avenue, treasurer; Mrs. A. P. Torrey, 810 East Harvard street, teacher.

## Today's World News In Brief

**KILLS HIS FATHER IN DEFENSE OF MOTHER, IS CLAIM**  
SAN ANTONIO, Tex., May 12.—Hugh Stowe, 21, shot and killed his father, George W. Stowe, 45, a dairyman, today. Two charges from a shot gun were fired, one of them almost tearing the head from the body. "I was afraid he was going to kill mother," was Stowe's statement when arrested, declaring that yesterday his father attempted to kill Mrs. Stowe during a quarrel.

**MINE IS DYNAMITED, REPORT IS MADE TO AUTHORITIES**  
PITTSBURG, Pa., May 12.—The drift mine of J. H. Peterman at North Bessemer, twelve miles from here, was dynamited and badly wrecked early today, according to reports received at the sheriff's office. The report said that a band of seventy-five to 100 men had marched on the mine shortly after dawn and placed a very heavy charge of explosive in the workings.

**FLYERS WHO FELL INTO SEA RESCUED BY STEAMER**  
LISBON, May 12.—The Portuguese flyers, Captain Sacadura and Coutinho, who fell into the sea between Fernando Noronha and St. Paul's rocks, while attempting an Atlantic flight, have been picked up by the English steamer Paris City, according to wireless advices received here today. A Portuguese warship is steaming towards the Paris City's position and will take the men aboard.

**VIOLENCE IN IRELAND CONTINUES TO THREATEN, CLAIM**  
DUBLIN, May 12.—The peace move in the Irish free state was overshadowed today by ominous news of violence and threatened violence in the north. More than half a dozen persons were wounded in Belfast. A bomb that was being carried in a suitcase exploded on a Belfast street car, wounding four people. A girl of 10 and a boy were wounded by firing in the streets.

**DEMAND CHICAGO LEADERS BE HURRIED TO TRIAL**  
CHICAGO, May 12.—Demand that "Big Tim" Murphy, Fred Mader, Cornelius Shea and five others indicted for murder in connection with the killing of two policemen in the bomb war attributed to labor gangsters, be rushed to trial and sent to the gallows was made today by the state's attorney's office. The eight men were named in indictments voted by the grand jury in special session last night.

**DRY OFFICERS RAID LA CRESCENTA VALLEY RANCH**  
LOS ANGELES, May 12.—Raiding two houses located on a small ranch in La Crescenta valley after the occupants had apparently been "tipped off," prohibition agents today made the largest seizure of "moonshine" liquor in the history of prohibition law enforcement in southern California. When the officers entered one of the houses they discovered more than 500 gallons of "jackass" brandy secreted in closets, garrets, trunks and other hiding places.

**ATTORNEY FOR GOVERNOR SMALL OUTLINES DEFENSE**  
COURT HOUSE, WAUKEGAN, Ill., May 12.—Speaking in a tone barely audible in the diminutive Lake county court room, Attorney C. C. Leforgee, chief of defense counsel, this morning began the reply of the defense to the opening statement of the prosecution made yesterday. Calm, easy, collected, Leforgee, as he began his address to the court and jury, in behalf of his client, Len Small, presented a sharp contrast to the fiery state's attorney, Mortimer, who delivered the opening address of attack for the state yesterday.

**48TH KENTUCKY DERBY WILL BE RUN ON SATURDAY**  
LOUISVILLE, May 12.—Kentuckians and an ever-swelling host of visitors worshipped today at the shrine of the thoroughbred race horse. The forty-eighth renewal of the Kentucky derby at historic Churchill Downs tomorrow will witness the most brilliant spectacle of the American turf and the greatest crowd that ever saw the famous race, according to every indication today. Every state in the Union and several foreign countries will be represented in the crowd that will squeeze through the turnstiles.

**BILLIE RHODES, FILM ACTRESS, IS SEEKING DIVORCE**  
LOS ANGELES, May 12.—Billie Rhodes, widely known as a film actress, but in private life Mrs. Levita Jobelmann, was in Judge Summerfield's court today seeking a divorce from William H. Jobelmann, a publicity agent. Charges were made by the pretty actress to the effect that her husband was cruel, that he drank to excess, that he threatened to disfigure her so that she never could appear again on the screen, and that he offered to give her grounds for a divorce if she would pay him \$10,000. Miss Rhodes was the widow of the late "Smiling Bill" Parsons, actor and motion picture producer, who was said to have left her about \$150,000.

**SENATE ORDERS PROPOSED MERGER OF STEEL FIRMS**  
WASHINGTON, May 12.—A governmental investigation of the proposed merger of six independent steel corporations into one gigantic organization was ordered today by the senate. The probe will be carried out by the department of justice and the federal trade commission under a resolution sponsored by Senator La Follette, republican, of Wisconsin. The resolution was adopted without a record vote. The resolution specifically calls upon the two government agencies to inform the senate what action they have taken to prevent the merger and what action they proposed to take. The attorney general is also asked to indicate how the government could prevent the merger.

**LEGAL VICTORY IS GAINED BY MRS. ANNIE STILLMAN**  
POUGHKEEPSIE, N. Y., May 12.—The so-called "confession" or historical letter in which Mrs. Annie U. Stillman is alleged to have confessed to her husband, James A. Stillman, that Fred Beauvais had "come into her life" was ruled inadmissible as evidence in the divorce hearing by Referee Daniel J. Gleason here today. Supreme Court Justice Morschauser had refused last summer to admit the letter, but attorneys for Mr. Stillman made a second attempt yesterday to have it admitted. Referee Gleason gave his ruling today. Rejection of the letter was considered a great victory for Mrs. Stillman and Baby Guy Stillman, whose paternity is questioned by Stillman.

## GOVERNOR ISSUES SWEEPING ORDER AGAINST KLAN

SACRAMENTO, May 12.—Governor William D. Stephens today issued a sweeping order to all national guardsmen to get out of the Ku Klux Klan or retire from the service. The order also applies to all branches of state employment. Declaring that "no one can serve two masters," Governor Stephens approved an order sent to national guard officers requiring all members of the California National Guard who have joined any secret organization, oath of which is superior to the oath to serve their state and nation, to withdraw from the organization in question or resign from the national guard. The governor's order was issued after it had been called to his attention that members of the national guard were among those whose names were found on the list of Ku Klux Klan members confiscated in recent police raids in Los Angeles. The action taken today by Governor Stephens places him on record as unequivocally opposed to the Klan. The governor's statement on the matter follows: "I have this date approved an order sent to national guard officers requiring all members of the California National Guard who have joined any secret organization, the oath of which is apparently meant to be held superior to the oath to serve their state and nation, to withdraw from the organization or resign from the national guard. No one can serve two masters, and any one in the state service should consider his oath to serve the state paramount to any other or leave the state's employ."

## FINANCIAL BACKING BEING URGED FOR EASTSIDE HOTEL

Advancement Association Hear Committee Report; Pledges to Purchase Stock

A hotel on the northeast corner of Glendale avenue and Broadway is likely to be a reality before many months.

The East Glendale Advancement association is of this opinion and discussed the matter briefly yesterday noon at its weekly luncheon in the banquet room at 225 South Brand boulevard at Y. White Inn. The attitude of property owners in the vicinity is now being sounded to ascertain definitely to what extent they would give the project financial backing.

The proposal is to purchase the options and holdings of the Ambrosini hotel company. The price mentioned is considered very reasonable by Herman Nelson, manager of the Glendale branch of the Los Angeles Trust and Savings bank; C. W. Ingledue of 100 East Wilson avenue, and others who have studied property values on East Broadway.

**Agree to Buy Stock**  
Pledges for the purchase of stock are now being received from those who would be willing to take \$3500 worth of stock and C. W. Ingledue heads the list with \$4000. S. C. Kinch of 328 North Brand boulevard is down for \$2000 and \$1000 pledges have been made by Dr. Henry R. Harrower, 1510 East Broadway; R. M. Brown, 106 South Glendale avenue; Dr. L. W. Young, 620 East Broadway and W. L. Pruitt, 812 South Brand boulevard. Other pledges have been received and it was stated yesterday that the project was meeting satisfactory approval.

Herman Nelson has been actively at work on the proposal. He is very anxious to see a hotel on the site, but he is equally anxious to make certain that it will be a paying investment. He called attention yesterday to the fact that no money was to be spent until formation of a permanent organization seemed justified by the pledges for financial support.

**Committee Makes Report**  
The following report was submitted (Continued on Page 17)

## Mrs. Edwin Dodds New Head Central P.-T. A.

At the meeting of the Central avenue Parent-Teacher Association, of which Mrs. C. H. Crawford is president, held at the school yesterday afternoon the following officers were elected for the ensuing year: Mrs. Edwin Dodds, president; Mrs. W. King Nelson, vice president; Mrs. D. F. Reichart, secretary; Mrs. Harold Van Horebeke, historian; Mrs. George Horne, parliamentary; Mrs. Walter P. Llewellyn, auditor.

The meeting was opened with the flag salute, followed by the singing of America by Mrs. Kent. A very interesting talk on "Wild Flowers and their Preservation" was given by T. D. Barnhart, landscape architect of Los Angeles. A variety of over 200 flowers collected from the surrounding country and carefully named were on display and greatly enjoyed by the children and their mothers who were present.

Mrs. J. C. Danford, librarian, gave a talk on books of natural science, contributing a list for the children of books on birds, animals and flowers. Reports of the various committees were read, after which the election of officers took place. At the close of the meeting refreshments of ice cream and home made cake were served in the patio.

The sixth grade, in charge of Miss Edwards, was awarded the mother count, having the largest number of mothers present at the meeting yesterday.

## Six More Policemen and Two Fire Fighters

Six additional patrolmen and two additional firemen are to be employed at once by the city administration.

The city council last night endorsed the recommendation for this action submitted by Col. J. D. Fraser, chief of police, and A. H. Lankford, fire chief.

The enlarged police department is expected to provide better police protection not only for the residence section of Glendale but also for the business district.

Col. Fraser stated this morning that the new men would be employed as soon as applicants could be found with the necessary experience and qualification. He is especially desirous of maintaining the personnel of the department at an exceptionally high standard in order that it may function with the highest efficiency.

## L. H. Morehouse Breaks Leg in Motor Crash

Louis H. Morehouse, former resident of this city and son of Mr. and Mrs. M. Morehouse of 1000 East Lomita avenue, is suffering from a broken leg which he sustained last week in a motorcycle accident. Mr. Morehouse, who now lives in Los Angeles, is manager of the Morehouse Mustard Mills on San Fernando Road.

INTERMEDIATES TO BE HOSTS TONIGHT; INVITE PARENTS

Special Program to Be Given and Also Demonstration Of School Work

"Patrons' Night" will be observed tonight at the Intermediate school. A half holiday is being enjoyed by all students of the school this afternoon.

This is an annual event, according to Miss Carrie Noble, principal of the school. Its purpose is to enable parents who are occupied during the day to see their children in their classrooms at night.

Patrons' Night will be observed tonight at the Intermediate school. A half holiday is being enjoyed by all students of the school this afternoon.

Patrons' Night will be observed tonight at the Intermediate school. A half holiday is being enjoyed by all students of the school this afternoon.

Big Drive Will Be Made Upon Leprosy

SHANGHAI—Within the next few years a big offensive is to be launched against leprosy in the Orient," according to Dr. W. W. Peter, member of the Council on Health Education, who has returned from a visit in the Philippine Islands.

Dr. Peter brought back with him, through the courtesy of General Wood and the Public Health Service, ten liters of the ethylester of chaulmoogra oil for experimental work in China.

Dr. Peter brought back with him, through the courtesy of General Wood and the Public Health Service, ten liters of the ethylester of chaulmoogra oil for experimental work in China.

Another Block Closed to Oriental Markets

Another owner of a Glendale business building has agreed to exclude Oriental markets if possible, according to a report made this morning by the chairman of the Merchants' Association committee.

New Battle Looms In Chinese War If Wu's Forces Advance

PEKING, May 12.—There was every indication this afternoon from reports received here through various sources that Chang Tso-Lin, defeated Manchurian war lord, is massing his forces for a stand at Lwan Chow on the Peking-Mukden railroad and that he has turned the disorderly retreat of his forces from the Peking area into an orderly retirement to prepared positions.

One apparently authentic report stated he has massed 30,000 men along the river which flows through Lwan Chow and is prepared there to offer battle if Wu's forces advance further. Wu's main army is now located at Chung Liang Chen.

16 Mountain Sheep Arrested for Going to Idaho From Oregon

PORTLAND, Ore., May 12.—Warrants for the capture and extradition of 16 mountain sheep have been issued by the Oregon state game commission.

These rare specimens, of which fifty are known to exist in the Pacific Northwest, escaped from the herd in Wallowa national forest in Oregon by swimming the Snake river into Idaho.

It is believed the hard winter in the forest urged the sheep to ford the stream in an effort to find more fertile pastures.

The state of Idaho has acknowledged service on the warrants, the Oregon game commission announced here today.

Executive Committee Of Y. M. C. A. Is Host

The executive committee of the Glendale district Y. M. C. A. will be hosts Monday night at the First Methodist church to the men who have acted as leaders of the Y. M. C. A. groups the past winter.

Harry O. Hill, State Y. M. C. A. secretary, will be present and bring greetings from the state organization. The banquet will be in the nature of a social evening and plans for the summer work will be presented. Among these will be the big camp at Catalina Island and a plan to be presented by C. D. Lusby of the Glendale State bank, whereby the boys can start a camp savings account at the bank so that they may save their small earnings to make the required camp fee, will be included.

Alaskan Malamute Dog Runs Wild in Denver

DENVER—Fear gripped residents of the Capitol Hill district following announcement of the escape of "Skaga," an Alaskan Malamute dog, from the home of its owner, Francis A. Nutt.

"Skaga" gained nation-wide fame when Lieutenant Clifford C. Nutt took it by aeroplane on his flight from Nome, Alaska, to New York, in 1920.

Lieutenant Nutt was recently assigned to service in the Philippine Islands and sent the dog to his brother in this city.

Alice Is Certain Any Profiteer Is Lobster

SAN DIEGO—Avowing to Police Headquarters that she is "mighty glad you have declared war on lobster profiteers," Alice Debow, negress, appealed to officers for protection from high prices charged by her groceryman.

"But your groceryman isn't a fish dealer," Detective Chadwick told the woman. "Anyway, we have nothing to do with this lobster profiteer war."

"I know my groceryman don't sell fish," replied the dusky Alice, "but he's a profiteer—and all profiteers is lobsterers."

OFFICIAL MINUTES OF CITY COUNCIL

Following are the official minutes of the City Council which met in session at the city hall Thursday night:

Council assembled at 7:30 p. m. Present, Councilmen Davis, Lapham, Robinson, Stephenson, Absent, Kimball. Minutes of the regular meeting of May 4, 1922, were read, corrected and approved as corrected.

Complaint, Planning Mill Mr. Cheever, a resident on Concord street, and others, appeared, protesting against the manner in which a planing mill was conducted in their neighborhood.

Vacating High School Alley This being the time set for the hearing of protests for the vacating of the west one-half high school alley (Harvard to Colorado), the clerk reported no protests received and there were no protesters present.

Widening of Howard This being the time set for the hearing—widening of Howard street at Broadway, Act 1903, the clerk reported a protest received and there were no protesters present.

**Locals and Personals**

Mrs. R. K. Snow of 609 North Maryland avenue will entertain as her guests at dinner tonight Mr. and Mrs. A. E. Hull of Los Angeles.

Mrs. M. C. Barrett of Parsons, Kansas, arrived in Glendale this morning to visit her daughter, Mrs. Maud Garber, 433 Palm drive.

Mr. and Mrs. Frank W. Greiner of 518 South Brand boulevard have gone to Palm Springs for a four weeks' visit.

Mrs. Charlotte Busby of 1150 North Louise street is spending several days at Long Beach as the guest of Mrs. Carl Boverfing.

D. Pennington of 912 East Orange Grove avenue left last night for Taylor, Texas, where he will visit his daughter, Mrs. E. B. Beard.

Mr. and Mrs. Edward Seerie of Denver, Colo., were dinner guests Wednesday night at the home of Mr. and Mrs. A. P. Findlay of 505 East Harvard street.

Mrs. Harry St. Clair of 1250 South Maryland avenue and house guest, Mrs. John Coleman, recently of Canada, were guests yesterday at the home of Mrs. St. Clair's daughter, Mrs. Marie Colton of Baldwin Park.

Mrs. Chadwick, who has been making her home in Los Angeles, is now with her daughter, Mrs. J. R. Danner of 1631 Gardena avenue. Mrs. Danner has been ill at her home for the past week.

Mrs. Vivian Kothe and daughter Ernestine of 309 North Cedar street are planning to spend the week-end as guests of Mrs. Kothe's sister, Mrs. J. M. Harlan of Huntington Drive and Sunnyslope boulevard.

Mr. and Mrs. H. A. Kent of Seattle, Wash., have moved into their home which they have purchased at 519 West Elk avenue. Mr. Kent will soon open a new bootery shop in Glendale.

W. T. Hattery has moved from South Glendale to 615 South Glendale avenue. Mr. Hattery is an ex-service man, who came from Ohio, and is making his home in Glendale, while he takes a course in vocational training in Los Angeles.

Butterflies at Brand boulevard and Broadway! Yes, but no flowers are growing in this busy intersection. The papillons are visitors from the Tropics and are wearing their best clothes. They are on display in the window of the First National bank.

The members of the Inter-Denominational Bible class held a meeting Wednesday at the home of the teacher, Mrs. J. Rhea Baker, 331 North Maryland avenue. Rev. and Mrs. Hinkley, missionaries from China, were present, and gave interesting talks in connection with their work.

The regular meeting of St. Mark's Guild was held yesterday at the church, with Mrs. Mortimer Baker, president, in charge. The day was spent in patchwork and trying comforters. Plans were made for a food sale to be held Saturday at 107 No. Brand boulevard.

A great deal of interest is being taken in the coming election of officers of the Thursday Afternoon club, of which Mrs. E. V. Bacon is president, and which will take place at the meeting of that organization in the branch library building at Los Feliz and Brand boulevard next Thursday.

J. C. Nichols, who formerly lived on East Lomita avenue, this city, recently motored up from his Long Beach home to visit with relatives and friends. Mr. Nichols, who is now employed in Los Angeles, has been working in Avalon, Catalina Island, for the past two months.

Mr. and Mrs. S. S. Wan and three children have arrived in Glendale from Logan, Utah, and have taken apartments at 615 South Glendale avenue. Mr. Wan is a painter, and also experienced in paper hanging and interior decorating. They are quite pleased with their new location and business prospects.

Miss Gladys Allowell and Miss Lorena Allowell of 331 West Lexington Drive entertained with a dancing party at their home Wednesday night. The guests included Mr. and Mrs. T. H. Menk, Mr. and Mrs. Owen Emery, Mr. and Mrs. W. L. Hyde, George Hastings, James McCormick of Los Angeles and Harry Atset of Los Angeles.

The Alpha Delphian groups of Glendale met yesterday at the homes of various members. Group No. 1 meeting at the home of Mrs. R. K. Snow, 609 North Maryland avenue; Group No. 2 at the home of Mrs. Frankie Webb, 303 North Louise street, and Group No. 3 at the home of Mrs. Charles Marshall, 525 South Central avenue. The study of Egyptian history was taken up at that time.

Mrs. Marie Petty of 343 West Vine street entertained yesterday with a very pretty luncheon. The table was decorated with sweet peas and the rooms with choice roses. The afternoon hours were devoted to needlework. The guests were members of the Thursday Social club and included Mrs. Albert Pickles, Mrs. Joseph E. Foy, Mrs. Raymond Kimble, Mrs. Robert McMullen, Mrs. C. E. Snively, Mrs. Herbert Gray, Mrs. Gus A. Lavison, Mrs. H. D. Heuklyn and Mrs. Petty.

**Locals and Personals**

Mr. and Mrs. Gregory Camargo of 227 East Maple avenue motored to Los Angeles Wednesday and enjoyed an evening at one of the theatres.

Mr. and Mrs. C. E. Snively of 106 East Maple avenue were among the Glendale people who motored to Los Angeles last night and attended the horse show.

Mr. and Mrs. R. O. Light and son, R. O. Light, Jr., and little daughter, Carol, of 421 West Maple street, were dinner guests Thursday night at the home of Mr. and Mrs. William Burgess of Los Angeles.

Mrs. G. W. Werrington of Youngstown, Ohio; Mrs. T. H. Horn, Mrs. Bray and Mrs. Hattie Kelley of Whittier, were guests of Mrs. W. A. Maxwell of 227 West Harvard street Thursday afternoon. Mrs. Maxwell and her guests were formerly neighbors and friends in Toronto, Ohio.

**Deaths and Funerals**

**HENRY M. CALKINS**

Henry M. Calkins, formerly employed by newspapers here, but more recently editor of the Kern County Progress, died Wednesday night in a Los Angeles sanitarium from throat affection.

**PHILIP T. MATTHEWS**

Philip Temple Matthews, 7-year-old son of Mr. and Mrs. Philip T. Matthews, Sr., of 447 Vine street, passed away May 12, 1922, from throat trouble which he had suffered for about two weeks. He was not considered dangerously ill and his death came as a shock to the family and friends.

Mr. and Mrs. Matthews have been residents of Glendale for about two months, having come here from Chillicothe, where interment will be held. Jewel City Undertaking company in charge.

**MRS. FLORENCE O. ROBINSON**

Mrs. Florence O. Robinson, wife of Leon J. Robinson, former resident of Glendale, passed away Wednesday afternoon, May 10, at their home, 309 Molino avenue, Long Beach. She is survived by her father and mother, Mr. and Mrs. John O'Laughlin, of Meadville, Pa., and three sisters and one brother, also one daughter, Mary Winifred.

Funeral services will be held Saturday, May 13, at the funeral parlors of L. R. Comer & Co., Elm avenue, Long Beach. Interment will be in the Masonic section of Forest Lawn cemetery, Glendale. Mrs. Robinson was a member of the Ebell club of Long Beach and had a host of friends who are expressing their heartfelt sympathy at this time.

**MRS. DEBORA A. BOONE**

The ninetieth birthday was the last passed by Mrs. Debora A. Boone, who passed away Wednesday, May 10, 1922, at 122 South Cedar street. She was the grandmother of Mrs. Edith L. Crocker of 407 West Burchett street and William N. Ricketson of 1153 Winchester street, and also leaves one son, Sidney G. Boone of Shafter.

Mrs. Boone was born in Columbus, Ohio, December 26, 1831. She had been a resident of California for the past twenty years and had lived in Glendale for the past year.

Funeral services were held at 2 o'clock this afternoon, Friday, at the Little Church of the Flowers, Forest Lawn cemetery. Pulliam, Kiefer & Everick were in charge, with Rev. C. M. Calderwood, pastor of the Congregational church, officiating.

The special display of the fashionable block prints in the window of the Irish Linen Store, are the work of Miss Josephine Laughlin. By special arrangement she will, for a few days, block patterns for \$5 on materials bought at the Irish Linen Store, 117 North Brand Blvd.—Advertisement. 5-11

**Windsor Place Tract Is 'Ideal Homespot'**

"An ideal homespot" is the slogan adopted by the Roy L. Kent company in describing the new Windsor Place tract placed on the market today.

Most of the lots are 60-foot frontage which brings a fine homestead of nearly a quarter of an acre within the means of an average buyer.

Special prices for opening the property will attract more than ordinary attention in view of the new Pacific Electric bus service and close proximity to the new high school.

Anyone acquainted with the rising values in the district will expect a rapid advance on these lots. It is usual to make the public pay for mountain views, trees, fine soil and the general advantages of restricted homesteads, but Windsor Place is seeking actual homebuilders and the owners have backed up their modest price schedule with a handsome bonus scheme to support a real "own your own home" movement on one of the garden spots of the city.

Windsor Place is located along Verdugo and Windsor Roads where activity in real estate recently has been quite marked. It is an ideal place for chickens, vegetable garden, fruit trees and homes with happy children who can attend almost any school within a walking distance.

Of all, this tract is bound to appeal to Glendale investors who know values, ideal locations, etc. The local market is offering first opportunity at the choicest selections.

**Committees to Hear Trade at Home Plan**

The Trade at Home committees of the Glendale Merchants' Association and the Chamber of Commerce will meet at the latter's headquarters tonight at 7 o'clock to consider plans for a "Buy in Glendale" week.

**BE OUR GUEST**

You are invited to take a trip with us to see Hamilton's No. 3, located in Huntington Beach, California's wonderful oil field. The last Sunday's Times speaks of our well being 300 barrels. We are not satisfied with that and intend to go down to the deeper oil sands. For reservations phone Glendale 983-R, or call at office, H. L. Bentley Co., 112 South Brand Blvd.—Advertisement. 5-12

**Glendale Singers to Be Part of Program**

Mayor Spencer Robinson and Mr. and Mrs. Harry Girard will sing tomorrow noon before the suburban section of the Los Angeles City club.

William Mulholland, city engineer of Los Angeles, will be the speaker of the occasion. He will comment upon problems relevant to the supplying a large city with water. Mr. Mulholland is credited with having promoted the Owens river aqueduct. Citizens of Glendale are invited to attend this meeting by Wyllys S. Abbot, chairman of the suburban committee of the Los Angeles City club.

Following the program in Los Angeles, those present will go to the Tri-Beaches where a fire department demonstration will be staged by the Boosters' club of Ocean Park. This will show the fire departments of Venice and Santa Monica in action. This is said to be the only trained inter-city co-operative fire fighting force of its kind.

In the evening there will be fireworks, a ball in the new Venice ball room and a special concert by the Santa Monica Municipal band in the new city auditorium at Ocean Park. The occasion will be celebrated as "Firemen's Day."

**Births**

A 9 1/2-pound baby daughter was born May 11, 1922, to Mr. and Mrs. D. J. Dockery of 115 West Windsor road, at the Glendale Research hospital.

Mrs. P. L. Lovejoy of 69 South Sateema street, Eagle Rock, is the mother of a boy born yesterday, Thursday, May 11, 1922, at the Glendale Sanitarium Hospital.

A baby boy was born yesterday, Thursday, May 11, 1922, at the Glendale Research Hospital to Mr. and Mrs. C. R. Hosley of 206 North Louise street.

# LOAN LEAGUE WILL INCREASE FUNDS FOR BUILDING

### Representatives of State's Big Associations Planning to Extend Their Work

When representatives of the building and loan associations of California gather in Oakland, May 19 and 20, to attend the seventeenth annual convention of the California Building-Loan League, there will be amassed resources of over \$60,000,000.

For the combined assets of the 102 associations in the state total that amount. Practically all of this huge sum is loaned to owners who are paying monthly installments.

One of the problems of the convention will face is that of increasing the amount of money available for home-buying loans. So many new families want homes in California that there is a constant demand for more money even though the repayments made by the more than 25,000 present borrowers are always reloaned immediately.

### Familiar to Many

The principal difficulty that the building and loan associations have to solve in order to make funds flow to them more readily is to educate the public on what the associations are and how they operate.

In some sections of the state this problem is not as acute as in others. In Los Angeles county, for instance, building and loan associations are familiar to almost everyone and loans in force there in 1921 were over \$25,000,000. A similar condition exists in other southern California counties and in Santa Clara county, which ranks second in the state in amount of loans. But, except for Santa Clara county in the north have not been educated to the building and loan idea. Here, although associations are plentiful in number, they are practically all small.

The twenty-six associations in Alameda and San Francisco counties do not total as much in resources as does one association in the south.

### Giving More Thought

Associations all over the state, however, are giving more and more thought to selling themselves to the public. Heretofore this has not been done because the movement had its inception as a co-operative, semi-civic plan for promoting thrift and home-owning and most associations were therefore not particularly aggressive. Today, while many associations are still mutual, and all retain features of the original plan, a commercial spirit dominates them and all associations are ambitious to grow. In growing they realize that they render more and more public service by making possible the building and owning of homes by the people who live in them.

The Southern California-Metropolitan Loan association is to be represented at this conference, according to Hayward & McCartney, local representatives, with offices at 142 South Brand boulevard.

There are three distinct parties in the Canadian House for the first time in the history of the Dominion. They are the Progressives, the Conservatives and the Independents.

# Rail Labor's Problem To Be Solved, Claim

TORONTO, Ont., May 12.—Sounding a well defined note of optimism, Ben W. Hooper, chairman of the United States Railway Labor Board, confidently predicted the equitable solution of railroad labor's problem at the convention of the Brotherhood of Railroad Trainmen meeting here.

"The combined common sense and justice of all concerned will find means for the solution of every problem affecting the relations of the carriers and their employees," Hooper declared in his address, which was regarded as the "keynote" of the board's future attitude toward the rail unions.

Hooper told of the struggles of the rail board to keep peace in the railroad union ranks, and how "with insufficient powers it is expected to work wonders."

"With no feeling of self-praise," he said, "let me assure you that the members of the labor board approach the great questions before them with a profound desire to give a square deal to the carriers and their employees and to protect the true interests of the American public."

No hint of the board's forthcoming action on pay reductions asked by railroads came from Hooper except that railroad pay standards could not be gauged with those of other trades.

# 'Blonde' Latest Color For Girl Graduates

FORT COLLINS, Colo.—Gay-colored gowns will adorn many of the fair-voiced graduates of the Colorado Agricultural college at the early spring commencement of short-term pupils this month.

In the study rooms of Guggenheim hall busy fingers of the co-eds are plying needles in the building of their gowns.

The day of color has arrived. The girl graduate may wear white, if she chooses, of course, but she may wear colors for the first time, according to the decree of Miss Margaret Durward, principal of the agricultural school.

As a result of this order, commencement dresses will be worn in peach-colored changeable taffeta, dainty orchid shades and the latest color, "blonde."

# Missouri Co-Eds Are Learning to Use Guns

COLUMBIA, Mo.—Pretty Missouri university co-eds are becoming expert markswomen.

Regular classes are conducted in rifle shooting, under the tutelage of Captain John P. Lake. Field practice also is held at intervals.

The young women have become highly adept in handling their rifles, according to Captain Lake, and declare they also have found the practice shooting to be a recreation more interesting than either golf or tennis.

# Aeroplane Trips Are Casus in Divorce Case

LONDON—The aeroplane has made its appearance in the London divorce courts as a means of luring wives from husbands.

William Durham Wilkinson, solicitor, suing his wife for divorce, charged that she took frequent aeroplane trips with Captain Ronald E. Dean, who was named in the action.

# Williams, St. Louis Browns' Slugging Outfielder, Is After Babe Ruth's Record

After making three home runs in one game against the Chicago White Sox, "Ken" Williams kept his eye on the ball and made his record six circuit smashes in four days. At that time he had Babe Ruth's 1921 mark for that time of the year beaten by a week. Williams is one of the hardest hitters in the American league. Last season he finished in a tie for second place with Bob Meusel of the Yankees in home runs. Each made twenty-four.

# Dempsey-Carpentier Contest Agreed Upon

LONDON, May 12.—Jack Kearns, manager of Jack Dempsey, announced this afternoon that he had reached an agreement with Francois DesCamps, manager of Carpentier, for a return match between the heavyweight and light heavyweight champions, to be fought in Europe on a date not yet fixed, but to be before June, 1923.

The announcement made by Kearns was made in mid-afternoon. Previous statements by the American manager have indicated that if there is a match fought in Europe, it will go to the highest bidder.

The agreement, Kearns announced, provides for a contest for the heavyweight championship, which shall go to the promoter making the best offer. It is announced that probably the fight will be held in London, though there is a possibility that it might go to Paris.

Ted "Kid" Lewis, who has expressed dissatisfaction with his defeat by Carpentier last night, today made formal demand upon the Frenchman for a return match.

Lewis and Dempsey met in a restaurant at luncheon time today. Lewis snubbing Dempsey because of the champion's statements regarding Lewis in the story which he wrote in reporting the fight, but the disagreement was smoothed over satisfactorily. Dempsey's story cast some doubt on Lewis being "out" at the time he took the count.

Douglas Stuart, wealthy turfman, today offered a purse of 75,000 pounds (normally about \$365,000), for a match between Jack Dempsey, world's heavyweight champion, and Georges Carpentier in London in September.

Both Kearns and Dempsey say that Carpentier looked better when he knocked out Ted "Kid" Lewis last night than he did when defeated by Dempsey in Jersey City last year.

# Steel Merger Causes Sensation on Exchange

By MAX KASE

NEW YORK, May 12.—The stock of the Lackawanna Steel company leaped from \$65 per share to \$75 on the exchange early today while Wall Street excitedly discussed the bombshell announcement of the merger of that great concern with the Bethlehem Steel company, the young giant constructed through the force of Charles M. Schwab, following his retirement from the United States Steel Corporation nineteen years ago.

It is seldom that Wall Street is called upon to absorb such important news as that of this merger without rather sensationally influenced. Lackawanna had been supposed to be one of the prime movers in a merger of seven independent steel corporations. Last week George F. Downs, president of the company, accompanied by other officials of the seven corporations interested in the proposed merger, made a round of inspection of the properties mentioned in the plans.

Apprehension existed today in some quarters that the sudden absorption of the Lackawanna company by the Schwab interests would have an unfavorable effect on the proposed independent merger. Thomas L. Chadbourne, organizer of the independent combine, however, was emphatic in his statement that the withdrawal of the Lackawanna would in no way affect the merger of the other companies, which would now be on a six company basis.

It became known this afternoon that the Bethlehem Steel company is negotiating for the purchase of the Wickwire Spencer Steel corporation. On the reports, Wickwire arose nearly 4 points.

# Henry Davison's Will Is Filed for Probate

NEW YORK, May 12.—The will of Henry P. Davison, which was filed in probate, specifically disposes of more than \$5,000,000, it was declared at the offices of White & Case, who were in charge of the filing of the will.

George Case, a member of the firm, declined to estimate the value of the entire estate.

Mrs. Davison, Frederick Trubee Davison and H. P. Davison Jr. are named as executors of the estate.

To his wife, the financier bequeathed all of his personal effects, including his jewelry, art works, automobiles and yachts.

Upon the death of Mrs. Davison, the will provided that the trust placed with the Bankers' Trust Company should terminate and that the trustees should turn over \$4,500,000 of the personal to his eldest son, Frederick Trubee Davison, either in cash or in securities. In addition, all shares of the Peacock Point corporation owned by the deceased should be given to Frederick Trubee.

All of the rest of the trust fund was then to be turned over in equal shares to the banker's three other children, Henry P. Davison Jr., Alice Davison Gates and Frances Pomeroy Davison.

# Antelope Rancher Is Armed Deity to Klan

LOS ANGELES, May 12.—Ordered in a letter signed "Ku Klux Klan" to leave the country within twenty-four hours, A. Nolenberg, an Antelope valley rancher, converted his home into a veritable arsenal, a defiance that cowed those who had threatened him, it was learned here today.

With his home fairly bristling with guns, Nolenberg answered the letter by posting signs on the fences of his ranch inviting his enemies to try to enforce their order for him to leave the country.

"Come on, I'm ready for you," one of Nolenberg's signs read. A list of names of more than 1,000 members of the Ku Klux Klan in Los Angeles city and county will be given to the county grand jury next week when it resumes its investigation of the Klan and the Ingewood mob violence. There was no session of the jury today, the jurors having adjourned to meet again Monday morning, when the evidence seized in the raid on Klan headquarters here will be presented to them.

# ONE DEAD AND TWO BADLY INJURED IN COLLISION

### S. P. Interurban Car Strikes Automobile at Crossing; South Gate Gardens

LOS ANGELES, May 12.—One man was killed and a man and woman were seriously injured when a Southern Pacific gasoline propelled interurban car crashed into an automobile at the Long Beach-Southern Pacific crossing at South Gate Gardens, south of Huntington Park today. The dead:

S. G. Messenger, Lynnwood.

The injured:

S. G. Niely and wife, Lynnwood.

According to witnesses the interurban car crashed into the automobile when Niely, who was driving the machine, attempted to cross the tracks ahead of it. The wig-wag signals were working when the accident happened.

### Escape Injury in Crash

It took less than a second to ruin the pretty new Wilson-Bell Hardware company delivery truck when it was struck at Orange street and Lexington Drive late yesterday afternoon, according to their report. J. Maling was the driver of the other car which loomed a wheel, Carl Misch, driver of the truck, hung to his wheel and escaped injury.

Early this morning T. Palmquist of Los Angeles and W. G. Boyd of Glendale collided at East California avenue and North Jackson street intersection. The former's car went to the garage.

# Heavy Demands for Lumber Are Indicated

PORTLAND, Ore., May 12.—For the first time in months, new lumber orders are greater than the production of the mills, according to the weekly report of the West Coast Lumbermen's association, which was published today.

The report shows the lumber business of the Pacific Northwest is readjusting itself on a substantial basis. One hundred twenty-seven mills in Oregon and Washington are covered in the report of the association.

The new business for the week ending May 6 was 13 per cent above production, which was 2 per cent above normal.

# 'His Name's Miser, Isn't It?' Asks Judge

TOLEDO—Mrs. Lillian Miser, in seeking a divorce from her husband, Gust Miser, told Common Pleas Judge Richie he gave her only \$3 while she was spending six months in the hospital.

"Well, his name is Miser, isn't it?" said Judge Richie.

Mrs. Miser testified that her husband was so stingy that when she used their auto he would map out the shortest route, then measure the gas to see that she took it. She said he never would allow company because he could not afford it, even though he is worth \$50,000.

Miser is 60, has gray hair, and Mrs. Miser is 35.

# Kick of Electric Lock Fails to Bar Officers

POPULAR BLUFF, Mo.—An electrically charged lock on a huge tool box failed to keep prohibition officers from getting a quantity of moonshine whiskey hidden inside, even if it did have an awful "kick"—almost as powerful, in fact, as the moonshine.

The officers found the toolbox in a garage here. After getting a jolt when they tried to open the lock they cut the wires and forced open the cover.

"A regular box of TNT inside and out," one of the officers remarked as they carted away the illicit liquor.

# Plans Completed For Citizen Military Camp

DENVER—Plans have been completed at Fort Logan, near here, for the citizens' military camp that will be conducted there this summer.

Three courses will be given for applicants from the Eighth Army corps area, designated as the Red, White and Blue courses.

The curriculum of the three courses at the summer camp provides a course of training for youths of seventeen to twenty-five, advanced training to qualify as specialists and non-commissioned officers in the organized reserves, and training to qualify for officers in the Officers' Reserve corps.

# Boxing Bouts Will Be Legalized, Says Landis

ATLANTA—There will soon be legalized boxing in every state in the Union, under the supervision of a boxing commission similar to the New York body, in the opinion of ex-Judge Kenesaw M. Landis, high commissioner of baseball.

"The politicians are simply afraid of the fanatical reformers," is the reason said to have been given by Judge Landis for present opposition to prize fighting.

His views were presented by Jake Abel, Atlanta boxer, who said he talked with Judge Landis on a recent visit to Florida and found the baseball czar a boxing enthusiast.

# Famous Right Hand Punch Defeats Lewis

LONDON, May 12.—It was Georges Carpentier's famous right hand punch that brought him victory again last night and ended the heavyweight aspirations of "Kid" Lewis. Carpentier angled for a chance to land his right from the opening of the bout. It came when the first round was nearly over, but many persons in the crowd claimed it was unfair because Lewis was appealing to the referee at the time.

Carpentier tried to finish Jack Dempsey with his right in their Jersey City fight last year and once he had Dempsey dazed and staggering, but the American rallied quickly.

## ROBERTSON PROVES PERFECT CONTROL WINS GAMES

### Recruit Pitcher of White Sox Getting Away With Murder? Not At All, Folks!

By DAVIS J. WALSH  
Sporting Editor International News  
NEW YORK, May 12.—A discerning individual in the stand arose on his haunches at the start of the seventh inning at the Polo Grounds Wednesday and looking toward the Yankee bench, delivered himself of the following:  
"What's the matter with you tramps? This guy's getting away with murder."  
The guy in question was Charley Robertson, recruit pitcher of the Chicago White Sox, who twirled a perfect no-hit game against the Tigers some days ago. And if he is getting away with murder, so then is Jack Dempsey, Thomas Edison, Mary Pickford and Warren G. Harding.  
It was New York's first glimpse of the new sensation, and, although the merry villagers hailed him with throaty emphasis as he came to the bench at the end of each inning, the popular verdict seemed to be that Robertson didn't have much.

Perhaps he didn't. Perhaps also, that was the reason the Yanks failed to get more than two lone hits through the first six innings of that ball game. Perhaps, too, it accounted for the fact that the Yanks, after sending over the tying run with three singles in the seventh, were unable to score again that day and ultimately were beaten in the eleventh inning, with Carl Mays, their ace, doing his underhanded stuff throughout.

But There's a Reason  
Robertson may appear to lack real deception. Indeed, his fast one is not so fast as Johnson's or Alexander's and his curve may lack the break of some other pitchers, but Robertson's control is perfect. That is the answer, as it always will be. It is the ultimate and final test of good and bad pitching. It was what made that taboo individual, Eddie Cicotte, a really great pitcher after years of mediocrity. The claim was often made for Cicotte that "He could throw a ball through a knot hole." And if necessary we presume he could.

And on what he uncov'ered yesterday Robertson is no less accurate than the departed Eddie. The youth showed himself to be a really fine pitcher and we venture the prediction that, barring the unforeseen, he will remain around the big league circuit for some years to come.

Among some of the East African tribes, to consummate the requirements of beauty, a native belle will consent to having her ears slit at the upper and lower ends and to adorning the lobes with iron ornaments weighing a pound or more apiece.

## George Sisler Out For Batting Record

George Sisler, the famous all around player of the St. Louis Browns, who is expected to give all the topnotchers in the American League a run for batting honors this year.

## The Sport Crucible By Davis J. Walsh International News Service Sports Editor

### THE PLAINT IMMEMORIAL

Oh, bring me back the yesterday,  
The day, the game the old fan knew,  
When Matty tossed the fadeaway,  
And Rusie burned a fast one through.

In fancy now my aging eye  
Sees old Bill Lange, a racing streak,  
Ed Walsh just whizzed a spitter by,  
And Wagner hit one on the beak.

Waddell, the Rube, wound up and sent,  
A blinding pellet down the groove,  
Hard by stood Chance, his feet apart,  
The ump's and Trojan Johnny start.

Then Snodgrass, muffed his maiden fly,  
Oh, bring me back these stars of yore,  
Who gave their all up to the last,  
Somehow, by gad, they please me more.

These mystic figures of the past,  
Mayhap, a goodly ten years hence,  
I'll sing a different song, in truth,  
When someone smites the outfield fence.

I'll think of Speaker, Cobb and Ruth,  
It seems to be pretty well agreed  
That Tris Speaker is going back.

Quite so. He's going back to the fence to make the catch every time some hitter lands on one.

### GET TOGETHER, GENTS

Being that Messrs. Leonard and Tendler are fighters, not orators or soap salesmen by profession, we herewith offer the novel suggestion that they settle their differences in the ring. This may sound a bit unreasonable at first blush, but anything is preferable to the constant yapping of this pair.

Regardless of what Gibson, Glassman or others may happen to say, Tendler and Leonard will meet for the lightweight title sooner or later. However, that seems to be beside the question. It is very excellent business to air one's managerial views, pro and con, and by the same token it is very excellent business not to listen in, unless you have a fancy for low comedy.

### DITTY

The moon rose up o'er yonder knoll,  
The ball rolled on beyond the hole,  
The man spoke from his inmost soul:  
"I'll fight it out on these lines," etc.

Since it seems to be the common impression that Johnny Kilbane is due to be divorced from his featherweight title by the first good man who can jockey him into a match, it mightn't be the worst thing in the world if the Frenchman, Criqui, beat the rest of the boys to it.

If Criqui won he would hasten to America and we might get some action in the featherweight division. This would be a good thing for boxing and the public as well. Yea, and a good thing for the promoters, too, God bless 'em.

Kid Norfolk is regarded as a brute. Palm Beach suits are unpopular in Alaska.

Will Hays has nothing whatever against the movies. Babe Ruth has no intention of playing ball in evening clothes.

## SPORTS CHATTER By BILL UNMACK PACIFIC SPORTS SERVICE

The fact that Stanford University track men took ten out of fourteen, first places against the University of California in the annual dual meet has given the Stanford supporters confidence that the Cardinal team will make a creditable showing in the I. C. 4-A championships at Cambridge, Mass., the latter part of May.

The unexpected showing of strength by Stanford and the fact the surprises included the defeat of California men who won national intercollegiate honors at Cambridge, Mass., last year, speaks well for the caliber of the Stanford performances, yet on the other hand the caliber of some of these performances is not such as to justify a prediction that these same Stanford winners are good enough to win their respective events in the National Intercollegiate this year.

Hendrixon, the California quarter miler who won his specialty last year, has been outclassed all this season and was beaten by Williamson of Stanford in 50 3-5. Falk of Stanford, who took second to Earl Thomson at Cambridge in the low hurdles won both the "sticks" last week, but his times of 15 4-5 and 26 1-5 are not inspiring for national competition. Muller of California, who tied with Landon of Yale, tied with his team mate, Treyer, the other day with 6 feet 1/2 inch, a distinct retrogression over his mark of 6 feet 3 1/2 inches last year.

The defeat of Kirksey of Stanford in the sprints by his team mate, Eddie Sudden, was not unexpected by those who have followed Kirksey's difficulty with his leg. That Kirksey ran into second place under his physical condition was more of a surprise than if he had been unplaced. Stanford believes Kirksey can "come back" at Cambridge this year, but the history of breakdowns by sprinters is too well known by close followers of the sport to give Kirksey the chance of victory that the undergraduates think he is capable of. Howard Drew, George Parker, Jack Nelson and a dozen other great sprinters of the past who suffered pulled or torn muscles is answer to the enthusiast who thinks Kirksey has a chance. He has a good understudy in Sudden and Hartrant, the giant shotputter, is also a ten-second man for the hundred and will unquestionably be the biggest sprinter, physically, in the century at Cambridge this season.

The Stanford men to go east will be Kirksey, Sudden and Hartrant, sprints, and the latter also in shot and discus at which he looks the most likely winner of events of any

men from this far west; Falk, hurdles, Hayes, hurdles; Hanner, javelin; Williamson, quarter mile; Daily, 880; Wilcox and Black, pole vault; Howell, high jump; Minsky, broad jump.

California will send to the Intercollegiate Dorr, who took second in the two-mile I. C. 4-A's last year; Borch, Traver, broad jump; Muller, broad and high jump; Henderson and Van Sant, hurdles; Hutchinson, sprints, Hendrixon quarter, Forentti, javelin throw and Jack Merchant, hammer throw, discus, shot put and broad jump, and probably the latter will go in the sprints.

## The World Over By FRANKLIN R. MORSE PACIFIC SPORTS SERVICE

"Better late than never" is quite an ancient adage. We note that Jack Dempsey now is in France. The big majority of young Americans of his age visited that country four years before the fighting champion decided to honor the natives with his presence. Undoubtedly the going is without so many attendant risks now as was the case in 1918.

The question arises whether, when a wrestler gets into a punishing hold from which the chances of escape seem nil, he had not better give up at once in order not to weaken himself for the remainder of the match in the event that it is constituted by two out of three falls. In their recent match in San Francisco, after an hour of wrestling, Santel secured a toe hold on Toots Mondt, of Greeley, Colo. It was a hundred to one shot that Toots could not get out of it. Yet he stuck by his guns until the pain became more than the human frame could stand. As a result he was unable to walk owing to his crippled condition, and being unable to go on with the match, it was awarded to Santel. Now, should Mondt have quit as soon as he saw he was in for it? On the other hand, would the erbwid have turned him down for rank quitter for not making a struggle? This presents rather an interesting question.

The value of athletics to a university is set forth in the following dispatch which emanates from Washington State college: "At an Associated Students' meeting, it was de-

ided that, in connection with publicity for Washington state, \$300 be appropriated toward paying the expenses of athletic teams which will visit the high schools of Washington. It is the purpose of these teams to advertise W. S. C. and get in touch with prospective students."

Some folks may think that the fact that a young woman said "Yes" only to the five hundred fellow who proposed to her has no logical right on a sports page. However, we think that young Mr. Royal Marshall, of Malden, Mass., is taking as sporting a chance as one could hook up with in a long day's walk. Think of the fine opportunity Mrs. Malden is going to have when the little domestic clouds begin to lower of saying: "And to think that I might have had any one of 400 other fine men instead of you."

The University of Washington varsity eight oared crew has a long grind of merely practice rows ahead of it up to the time of the Poughkeepsie regatta, without any actual competitive races in sight. Washington's season begins and ends with its one race against the University of California. In the east practically all of the crews will have several races before the date of the Hudson river classic. The Washingtonians will keep so until after their east-stale will have to be guarded against by Coach Ed Leader and he will have his hands full in this connection.

**A GOOD TIP** TO MAKE THE RIGHT BUY IN A LOT Invest your money in a restricted lot or build your home just as close as it is possible to the wealth of your section. Not often this is possible—IS IT?

Exclusive But Not Expensive

## Why Not the Best— It's Your Money

Annandale Restricted Lots Are Surrounded by Only Wealth and Club Grounds, Not Additions of Little Houses and Business Centers.

# Annandale ESTATES LOTS

Opposite Annandale Country Club, Colorado Boulevard, Between Eagle Rock and Pasadena—Only 50-Foot Lots in Section

## NOTICE! IMPORTANT FACTS FOR YOU TO KNOW AND TO THINK ABOUT.

—When you buy a lot consider location, restrictions, lay of land and what's going to be built around the addition. After you buy it's too late.

—In Annandale Estates you have without question the location, with Club Golf Links on two sides (THE CLUB OWNS THE PROPERTY, TOO), then on the east highly restricted residence lots—the north you'll find some of the most beautiful estates in CALIFORNIA. THIS IS ALL THERE NOW. NO TALK ABOUT WHAT'S GOING TO BE, BUT COME SEE FOR YOURSELF.

—I have sold to a class who know my property, too; yes, some of them have known it for fifteen to twenty years. I am using no bunk—I have the lots and they are priced right, too.

**Public School at Corner—  
A Wonderful Place to Live—  
Each Lot a Beauty, Too—**

**Lots \$1500 to \$2000**

**TERMS—\$300 Cash, \$200 in Six Months,  
Balance in One and Two Years**

—Improvements in and paid for. Remember, about 7 1/2 miles from Seventh and Broadway, Los Angeles. Surroundings are positively the best possible.

## Think! What Will These Lots Be Worth One Year From Now? What Better Investment Can You Offer on So Small a Cash Payment?

—By making intelligent comparison of location, Prices, Terms, Improvement—in fact, in every detail you might think of—you will see for yourself "It's Wise to Buy" one lot anyway.

**Where Radio Supply Races Demand**

This photograph taken in the assembling room of a large radio concern shows the force of workers required to cope with the overwhelming demand for wireless telephones.

**Instructions for a  
Radio Telephone  
Receiving Set**

By HARRY F. DART  
Compiler of the Radio Operator's Course for the International Correspondence Schools

**Article 2. A Crystal Detector Receiving Set**

FROM the antenna the signals are brought through a coil b of about 80 turns of No. 24 double-cotton covered copper wire wound in one layer on a cardboard cylinder about 4 inches in diameter. Taps should be provided at one end of the coil so that the number of turns actually in use can be adjusted in steps of 1 turn. The circuit then goes through a variable air condenser c, one with a maximum capacity of 0.001 microfarad (a unit of electrical capacity) usually being ample. Such a size corresponds roughly with a condenser made of 43 semicircular plates of about 3 inches in diameter. Antennas of some characteristics may not need this antenna condenser, but it is usually required when receiving signals on wave-lengths below 1,000 meters. On the long wave-lengths, the condenser should be connected in parallel with the primary coil, while on intermediate wave-lengths the condenser would be short-circuited or removed from the circuit entirely.

Another coil d is then placed so as to receive energy from the primary coil. This second coil, commonly called the secondary, may be made of about 160 turns of No. 28 double-cotton covered wire wound on a cardboard cylinder which will slide easily into the primary cylinder. Four or five taps or more should be brought out to one end of this coil so that the number of turns in use can be adjusted by large steps. A variable air condenser e in parallel with the secondary coil permits of fine adjustments of this circuit to the desired wave-length. About the same size of condenser should be used here as was used in the primary, namely, one of about 0.001 microfarad capacity. From the secondary condenser one side of the circuit goes to a crystal detector unit f. The essential parts of this device comprise a fairly large crystal of galena or silicon against which a fine piece of spring bronze wire (called a cat whisker) makes a light contact. Galena, due to its extreme sensitiveness, is the most widely used material in this field, although it may hold its sensitiveness for only a few minutes at a time. All crystals of any one material are not equally sensitive, nor are all spots on any one crystal as good as all others. For this reason it is best to try out many points on the crystal by moving the metallic point from place to place and listening. Some points will be found which give stronger signals than do others, and the former should be used.

The circuit from the crystal detector to the remaining terminal of the secondary condenser is completed by a set of telephone receivers g of about 2,000 ohms resistance. Since much of the success of receiving depends upon the receivers, it is desirable to purchase a good quality set. It is desirable in most cases to connect a small fixed condenser h in parallel with the receivers. This may be an air condenser of 0.0006 microfarad capacity, corresponding in size with one made of 11 circular plates about 3 inches in diameter.

**75,000 Frenchmen Died  
in War From Own Guns**

PARIS—"Because of a false conception of offensive principles, by lack of liaison between artillery and infantry and by the irrational use of heavy artillery, 75,000 Frenchmen were killed in the war by their own artillery." This is the astounding revelation made by General Etienne Percin, once commander of a French army corps, in his latest book "The Massacre of Our Own Infantry."

Referring to the cost of munitions in the war and in order to give what he calls an example of the waste shown during battles General Percin remarks: "As a result of waste of ammunition from August 2, 1914, to November 11, 1918, we spent 26,000,000,000 francs in munitions, or one-seventh of our total war expenses."

**OFFICE BURLESQUE IS  
BLOW TO BRITISH  
DOLDRUMS**

**Society Formed in London For  
Drive On Monotony Of  
Workers' Lives**

Written for International News Service LONDON, May 12—Anxious about the results of the monotony and dullness of London commercial offices, a society is being formed with the intention of brightening the existence of these dark places so far as may be possible.

It is pointed out that hundreds of thousands of people live the greater part of their lives in the dingy institutions known as offices and that the atmosphere therein must have its effect on their dispositions when elsewhere. Anything, therefore, that can help to make offices places of delight must be for the good of the community at large.

The first great attack is to be made on the monotonous, tapping typewriter. It is suggested that, wherever possible, musical typewriters should be installed forthwith and stenographers, should be instructed in the art of playing their correspondence to airs that might be deemed appropriate.

Invoices, it is pointed out, might be typed on an appealing note, pianissimo and long drawn out, while receipts might be rattled off to bright music from the latest revue. Personal letters dictated by the heads of firms should be switched on to music of the latest amorous ballad, and replies to demands for quicker service should be written to the music of a mediaeval minuet.

**Whistling Classes for Office Boys.**  
A certain amount of attention, also, should be devoted to the better musical education of the office boy. Whistling classes should be arranged for them every morning, and competent siffleurs should be engaged to make certain that no hidden talent in this direction should lie unused.

It is a matter of common knowledge that great talent in the direction of whistling is either wasted or unused in the case of the office boy. Any latent genius of this character should not be allowed to be hidden—far less suppressed—among this important section of the community, and for the benefit of all any talent of this kind should be given the highest and most sympathetic encouragement.

The services of a cartoonist might also be usefully employed. He might give instruction on the best way to enliven the margins of the firm's account books and letterheads with humorous caricatures of the various members of the staff. It is also suggested that he might do a funny black-and-white drawing of the boss to be pasted on the safe for the edification of all.

Again, demands for payment might be made out on a special paper, with a picture of the firm's lawyer, armed to the teeth, standing out firmly against a cloudy background and suggesting the ultimate fate of the defaulting debtor.

Telephone operators, also, might help in this brightening process. They might be taught either to tell funny jokes to waiting subscribers or to engage them in polite and improving conversation.

For instance: "Sorry your line is busy," says the operator, "but have you read 'Broken Windows?'"

"Who is it by?" asks the subscriber.

"Eva Brick," is the reply.

An office run on these lines should be bright, snappy, enterprising and efficient.

**Snow Plows Purchased  
for Capital Pathways**

WASHINGTON—Congress will not be caught napping again when the next blizzard hits Washington.

During the past winter's terrific storms senators had to dig their way to the Capitol and on one occasion several senators missed roll calls by being unable to climb through the drifts on the Capitol grounds. It will all be different next winter.

Three snow plows have been purchased for use in clearing pathways from the trolley lines to the Capitol's entrances. You can't catch the legislators napping again.

**State Getting Better!  
Slayings Grow Less**

SACRAMENTO, May 12.—Arrests made in California during the six month period ending April 1, last, totaled 8896, an increase of 633 over the preceding six months, according to a statistical report on crime made today by Charles Morrill, director of the state bureau of criminal identification.

A total of 16,979 persons have been arrested on various charges during the past twelve months.

If major crimes be taken as the criterion, however, California's crime wave shows signs of receding. From May to November, 1921, there were 172 murders committed the report shows, while in the six month period starting November, 1921, and concluding with April of this year, only 153 homicides were reported.

Arrests for burglary during the past six months totaled 1167 as compared with 1042 in the preceding period.

Evidence of the effectiveness of the state crusade against the sale of contraband drugs is found in the statement that 484 drug peddlers were arrested during the last twelve months, 296 of whom were taken into custody during the six months period just ended.

**BOXER'S CONDITION BAD**

SAN FRANCISCO, May 12.—Robert Turney, well-known middle-weight boxer, was in a serious condition today as a result of a fractured skull sustained in a boxing match recently at the Association club. In the last few seconds of the fourth and final round of his fight, Turney was struck on the chin by William Hickman. He fell heavily and when he failed to regain consciousness was rushed to a hospital.

## FIND THE WOMAN, MYSTERY PICTURE, T. D. L. TODAY

Most Baffling Story Ever Told  
On Screen Is Presented  
With Stars In Cast

Those critics of the screen who have maintained that the ending of most motion pictures is so obvious that much of the interest is lost would do well to come to the T. D. & L. theatre today, where "Find the Woman," featuring Alma Rubens, is being presented.

This Cosmopolitan production is undoubtedly the most baffling mystery picture ever produced because up to almost the last foot of film the real murderer, who has been sought for weeks by the police, is not known to the spectators. Thrill succeeds thrill as the finger of suspicion is pointed now at this girl, now at that. You will grip the sides of your seat through the fast moving drama that Arthur Somers Roche wrote.

Not only are there startling adventures, daring escapes and extraordinary complications in "Find the Woman," but the picture also presents two delightful love stories. Tom Terriss directed this absorbing drama. Besides Miss Alma Rubens, star of "Humoresque," some of the members of the remarkably fine cast are: Ellen Huban, George MacQuarrie, Harrison Ford, Norman Kerry, Henry Sedley, Ethel Duray, Arthur Donaldson and Sydney Deane. It is a Paramount picture.

Besides "Find the Woman" there is presented a scream of a 2-reel comedy, "A Hero at Zeno," also a Tony Sarg comedy, "An Earful," and "Switzerland," a Robert Bruce scenic. Altogether this is an attractive and most entertaining program.

### Fisher Variety Store Has Anniversary Sale

Fisher's Variety Store, 212 East Broadway, is celebrating its first year in business with an anniversary sale.

J. F. Fisher, proprietor of the establishment, this morning asserted that housewives who bore this sale in mind would be able to practice real economy and at the same time secure regular high quality merchandise. The sale will last eight business days and will close with night-fall, Saturday, May 20. Special prices have been made upon various items in each department of the store. Among articles on which particular bargains may be found are enamelware, graniteware, aluminum ware and grass rugs.

The new addition to this store, which has added one-third to its floor space, is being utilized as the household department. It is well-stocked with dishes and kitchen ware of all kinds.

Mr. Fisher declared that business conditions looked especially bright at this time.

### BREAD OR BOOZE—WHICH?

LOS ANGELES, May 12.—One of the most novel methods of bootlegging yet revealed in Southern California was reported by local prohibition agents who arrested L. Enrico and G. Helon, proprietors of a French-Italian bakery in Santa Monica.

It consisted, it is said of an elaborately arranged "bread and liquor" system of delivery, whereby bakery customers could obtain either bread or liquor, according to prohibition officers. The discovery was made when some of the "products" were delivered to a "dry" officer.

## COMMENT THAT'S ALL

In Touch With Washington  
One 'Main Street' Editor  
Newspaper Economics  
Buy, Build and Progress

By Gil A. Cowan

WHILE Washington seems a long way from Glendale, the people of this city do have a decided interest in affairs at the nation's capital.

Through The International News Service leased wire, the U. S. Press Association, J. E. Jones' special dispatches and other correspondence, The Glendale Evening News keeps its readers well informed as to the events of the day.

Once in a while it takes a review of the eastern papers to find out about something which strikes home and herewith we publish an editorial from the Baltimore Sun which mentions Frank Harrison, that Nebraska politician, who aided Congressman Walter P. Reuther and others in obtaining an independent postoffice for Glendale.

Under the caption, "A New Man in Washington," the Sun says:

"Critics of government and advocates of federal economy and retrenchment should be informed of the arrival in Washington of a new man, fresh from the prairies, and a new idea. It so happens that a 'Main Street' newspaper editor, as Nebraska, Frank Harrison by name, by some quaint turn of politics has been made the commissioner in charge of the American exhibit at the Brazilian centennial exposition, which opens in Rio de Janeiro next September.

"Mr. Harrison has an appropriation of \$1,000,000 to work with. He expects to spend only a small fraction of this amount. He was assured by various dignitaries, job hunters and otherwise, that he must have a staff of several hundred executive assistants, technical experts, research workers, trade attaches, etc., to do his work properly. Up to date Mr. Harrison has employed six men and a stenographer. When the office is rushed he 'pitches in' and does his own 'stenographing' as he calls it, his own envelope-addressing and other odd jobs that his newspaper experience taught him how to do.

"The state department sent the Nebraska editor a demand for \$10,000 in connection with the exposition preparations a few days ago. He countered with a demand for an itemization of the sums to be spent. When it was received, he sent this word to one of Secretary Hughes' assistants: 'That work can be done for \$2,500 without any trouble at all. Come over here and I'll show you how to do it.' The state department dignitary did not come, but accepted the \$2,500 without further parleying. Several thousand per cent empty demands have been made upon Mr. Harrison from senators, representatives, politicians of high and low degree for 'jobs' within his jurisdiction. He always asks: 'Does your candidate speak Spanish?' Invariably they answer: 'Yes. They will fit in the work in Rio splendidly.' He replies to that: 'Well, the Brazilians speak not Spanish, but modified Portuguese. But there are not going to be any jobs over here for anybody, anyway.'

"The biggest coup of this economist from the prairies has been to make the regular employees in the various departments do the work of preparing the specialized exhibits for him. No outside aid has been needed. For instance, the department of agriculture has made the plans for the agricultural exhibit; the bureau of mines for the mineral exhibit, etc. The routine politician would have found this work a fallow field for the special appointments for the henchmen.

"All of this is merely a homely, plain common-sense illustration of what federal economy and retrenchment really means. There is nothing exotic or even scientific about it when a genuine 'irreconcilable' reaches Washington. The man who wants to defeat red tape can do so, provided he can stand the pressure brought to bear against him. In the present case, the Nebraska editor happens to have the confidence of President Harding and is likely to win out."

Trust to a newspaper man to practice economy. That's all he knows. Trust to that same newspaper man to cut red tape. He has to or there would be no daily newspapers published.

Eight years ago the writer had the pleasure—if it can be called that—of editing, writing, soliciting the business, etc., for an Imperial Valley morning daily.

It cost less than \$100 a week to publish that paper and its payroll was only \$65. If a great economy has never been practiced in the last decade, governmental or otherwise, Frank Harrison and every other publisher would like to hear how.

That is mentioned only to illustrate the economy to be found in and around newspaper offices. May the taxpayers league elect only those who have graduated from such schools.

While building in May cannot possibly attain the April figure, there is no slackening in spirit or speed with which homes are going ahead. "Buy and build" is the keynote of progress.

The fact that \$100,000 has been rolled up in two weeks' time without any major permits being issued looks good because there are business buildings, a church, etc., straight ahead.

### HUNTING FOR ASSAILANTS

OAKLAND, May 12.—A search is being made for four men who attempted to kidnap Mrs. George Gordon, 72 King avenue, after attacking her in a lot in the exclusive Piedmont district. It was in this same lot that Ula Carlson, Piedmont servant girl, was found mysteriously murdered a year ago.

**PROGRESSIVE CLUB  
PRINCIPLES ARE  
BRIEFLY TOLD**

**J. Frank Glendon Tells About  
Aims of Organization to  
Glendale Members**

Principles of the Progressive club were given at the installation meeting and charter presentation of the local club, held this week at the Chamber of Commerce banquet hall, District Governor J. Frank Glendon was the principal speaker, his address, in part, being as follows:

"The Progressive Business Men's club is different from other clubs, particularly in the fact that it is a national organization. Other clubs being international are restricted in their activities, for the national club can discuss and take up various phases of activities without fear of offending international members.

"We have a particular, definite and constructive policy, one which has been adopted by the national officers of this organization. The Progressive Business Men's club is morally and physically opposed to a surrender to the spread of propaganda and the dissemination of the idea among citizens generally in opposition to excessive legislation in the United States. That is the point to which I would like to draw your thought for a moment. You will find that that issue, if you will call it an issue of legislation, has not a friend anywhere.

"Heretofore, it has not had an enemy, at least in the form of an organization opposing this thing which has, in recent years, become an absolute national dissipation. Our state legislative bodies, to say nothing of our national congress, passed laws in numbers so great that they could not be intelligently considered if they were to sit in legislation for a period of years.

**Many Bills Passed**

"At every session of the legislature there are passed at times between 400 and 800 bills in one sitting of the legislature. How can any body of men intelligently consider such a mass of bills? It is a distinct evil. Hundreds of these laws are passed and put on the statute books and nine-tenths of the people know nothing about them. Many of them are only for the convenience of the people who have ulterior motives and some personal selfish point to gain.

"The Progressive Business Men's club is opposed to the passing of restrictive legislation that is militating against any individual exercising the citizenship privilege—a privilege which every citizen should highly prize. This is something which we must keep in our minds and consider it seriously, as good Progressives.

"Beyond this point I would like to give you a little idea of the brighter side of the privilege of membership in The Business Men's club. As a Business Men's club we are competitors with none, except in the sense of competition to see who can do the most good in the community. We are here to co-operate with the Chamber of Commerce, with other clubs, although some of them may not be aware that it is a privilege to co-operate with our club.

"But we must keep in our minds that it is our privilege to do the greatest good in the city of Glendale, which means more good for the community and Los Angeles, which means more good for the state and more good for the nation. So that no matter how little or small or how big a constructive thing that is to be put over in Glendale—to that extent we have bettered the place to live in.

**Middle-class People**

"One more thing, the business men's organizations of this nature are bringing about something that the men have dreamed of, have shouted over and have not seen the means of accomplishing; and that is, the definite organization of the middle-class people of the United States. The capitalists have been very efficiently and very effectively organized. Labor has been very efficiently and effectively organized also and the result is that in a great national issue, and there have been many clashes, the middle class or professional people have been squeezed between the millstones. But that situation is rapidly being reversed, although many men who are helping are unaware of this. The ultimate result will be that, as soon as there are sufficient organizations of this type, composed particularly of the middle class of professional people, this situation will be materially bettered.

"Our aims and activities are altruistic. We are organized for the betterment of ourselves, the betterment of our business and the enforcement of the laws of the country, fairness in business; honest in policy; square dealing; the spirit of helpfulness; the spirit of public service."

Continuing further and addressing President W. B. Kelley, District Governor Glendon said:

"President Will, it is now my privilege to present the charter of this Business Men's club and in doing so I charge you that it is your duty and your privilege to see that the principles of this organization become deeply and rightly imbedded in the consciousness of every member of this organization, and that the tenets of this organization are adhered to and lived up to, and to see that the work of this organization always along the line of right and righteous activity and mutual helpfulness and aggressive spiritual public beneficence."

In response, President Kelley said:

"District Governor, I can assure you that I am speaking not only for myself but for every member of the Progressive body that we receive this charter with honor and we will endeavor with the help of all of the members to make Glendale one of the liveliest Progressive clubs in the state of California. I want to say

THE STORE OF SERVICE

**Strike of Protest on  
Contract System Urged**

CHICAGO, May 12.—The United States railroad labor board today awaited the next move of the nation's railroads following the board's decision forbidding "farming out" at low wages, interpreting that practice as a violation of the federal law.

Rail shophmen and switchmen are now compiling votes among their 600,000 members for a strike in protest against the contract system used by some railroads by which contractors paying lower wages than railroads had taken over entire shops formerly owned by the carriers. More than 150,000 men are estimated to be working in such shops.

The board's decision came in a test case between the federated shop crafts and the Indiana Harbor Belt railway. Other cases are before the board. The one against the Erie railroad has been bitterly contested and strikes have been called in many of the shops formerly owned by the road. The unions charge the shops went under control of contracting companies with no changes in personnel or management.

Approximately 1500 workmen of the Western Maryland railroad are on strike against the "farming out" system.

Upon the decision may hinge the final test of the rail board's doubtful power. If injunctions against the decisions are asked, a decision may be made interpreting the transportation act and the authority it gives the board.

Under the decision contractors doing work for railroads must pay the same wage scales as those set up by the board for similar work done in railroad shops.

**Last of Swiss Bell  
Ringers Passes Out**

PINCKNEYVILLE, Ill.—The last of the famous Swiss Bell Ringers, first exhibited in this country by Phineas T. Barnum, is dead.

Martin Freeberthysen, eighty-nine, for many years sole survivor of the troupe which entertained the late President Martin Van Buren during his retirement, succumbed to the infirmities of old age. Burial was in Valhalla cemetery, St. Louis.

The original Swiss Bell Ringers were Conrad Freeberthysen, four sons and four others. At the age of nineteen, Freeberthysen, a Swiss, entered the army of Hesse-Cassel, then under the protectorate of Elector Frederick William II, and he so entertained the Elector that he became known as the "Great Musician" and was given a gold cross with an inscription expressing the ruler's esteem.

The Freeberthysen family, the father, mother, six sons and five daughters, came to the United States in 1848, and their company was soon organized under the management of P. T. Barnum.

**HARDING WITHHOLDS VIEW**  
WASHINGTON, D. C., May 12.—President Harding will not communicate his views to the senate finance committee regarding the McCumber and various other soldiers' bonus proposals until he has returned from his week-end visit to Absecon, N. J., as the guest of Senator Walter E. Edge. It was stated today by Senator Watson, republican, of Indiana, following a conference at the White House.

A report that the president was engaged on a letter to Senator McCumber, republican, of North Dakota, the committee chairman, in which he would reiterate his position regarding proposed bonus legislation and would probably dispatch the letter to McCumber before the end of the day, was emphatically denied by Watson.

**SCHOOL DISTRICTS  
NOW IN BUYING  
ORGANIZATION**

**Glendale Board Is Seeking to  
Save Some Money in Doing  
Purchasing for Plants**

A plan by which the grammar school board of education may possibly save as much as \$3,500 on the purchase of school desks for next term is being backed to the fullest extent by Richardson D. White, superintendent of schools.

Co-operation between a number of neighboring school districts in the purchase of school supplies was pledged at a recent conference held at the city club in Los Angeles. Glendale was represented both by Mr. White and Irving Oliver, business agent for Glendale Union high school, Los Angeles, Pasadena, Alhambra, Santa Monica and Eagle Rock were represented and other districts are expected to join the organization.

So far, the price of school desks has been the principal topic of discussion. After comparing notes, members of the new association found that quotations on the desks varied in inverse ratio to the size of the district. In other words, Los Angeles got the same desks for \$7.75 for which Glendale paid \$10, and Eagle Rock about \$12.

Through co-operative buying of the desks and supplies for the school buildings now under construction, it is felt that quite a saving can be effected for the benefit of the taxpayers.

Mr. White denies that the organization is in any way a "trust." He asserts that it is rather an organization to prevent manufacturers and dealers from continuing to take advantage of school boards' necessities. He believes that lower prices can be obtained through buying in large quantities.

Miss Elea Anderson, who was recently killed in a fall from a parachute near Stockholm, was the only Swedish woman to hold an aviator's certificate.

**Actresses to Ride As  
Jockeys at Longchamps**

PARIS.—Horse races for actresses appearing on the Paris stage is the latest attraction to be added to the already numerous competitions around Paris in the spring.

The track at Longchamps, in the Bois de Boulogne, has been hired for one day, and owners of pedigree race horses have been asked to loan their animals, which will race twice around the track mounted by such stars as Mistinguett, Pearl White, Fanny Heldy, of the Opera Comique, who recently was refused a license to ride on French tracks; Gaby Morlay the only woman in France to hold a pilot's certificate to "man" a dirigible; Spinielly, the famous comedienne; Alice Delysia, who has stated her intention to come over from London to compete, and many others.

**"LIKE NEW AGAIN"**

Smart, trim attire raises a man both in his own opinion and in the estimation of others.

A departure from dress indifference to exacting neatness has changed the whole outlook on life for many; elevated their aspirations and awakened inspirations.

Renewed freshness in a suit invites renewed confidence in self; snappiness induces happiness.

Transition from an old to a new suit is hard to imagine when badly soiled, and the same is true when a suit is badly soiled, a gown spotted, a waist stained or a coat mud-splashed by a passing motor car.

Such garments are commonly discarded as beyond redemption when Dry Cleaning would revive their beauty and reclaim their worth.

Let us demonstrate the high character of

# Frances Ingram Is Coming

Ellison-White announce a special Chautauqua tour of Frances Ingram, famous contralto of the Metropolitan Opera Company and formerly of the Chicago Operatic Association. Companini said, "The best American contralto voice I have ever heard." The Chicago Evening Journal says, "The greatest contralto of her generation." She appears in concert here on the second evening of Chautauqua with three assisting artists: Ethel Stearns, violoncellist; Vere Stearns, violinist, and Mina Hellekson, pianist.

## Seven Wonder Days

Make Chautauqua week your vacation week. You will never regret it. It will be seven days filled with interesting and inspiring lectures, splendid music and wholesome entertainment. Lectures by Opie Read, Norman Allan Imrie, Dr. Elmer Lynn Williams, J. C. Herbsman and Edna Eugenia Lowe. Eleven concerts during the week by Frances Ingram and the Stearns-Hellekson Trio, Patton Brothers' Trio, Oceanic Quintet, Electra Platt and Vernon Stone, The Watteau Girls and The Gilvan Opera Company. Paul Fleming and Company in "An Evening of Magic" on the first night and on the fifth night a big New York play production.

Glendale, May 25-31

# VALLEY RANCH FOR TURKEY INDUSTRY PROVES SUCCESS

Hundreds of Birds Are Being Made Ready for Holidays; C. of C. to Meet

It may be surprising to many of the old-timers to learn that the San Fernando valley is the ideal spot to raise and mature the timid turkey. Near Owensmouth, Thomas T. Middleton, proprietor and general manager of the Lone Star Ranch, has developed a new industry that will undoubtedly prove a pattern for many other valley live wires.

This poultryman has so successfully specialized in the turkey game that he has eliminated the "gambler's chance" from it and has made it as safe as plucking poppies on an Owensmouth mesa. He owns two 500-egg, three 300-egg and one 100-egg incubators of the latest type; these are now caressing 1600 fertile turkey eggs, and are working day and night to supply day-old poults for a voracious market.

From this output he intends to raise 500 birds for the coming fall holidays as well as rejuvenate his stock of 106 laying hens and 100 gobblers. He has a brooder house that took him ten years to perfect; it has a capacity of 1000 birds, has a thermostat heating system and special equipment.

The fledglings are able to roost on a scientific dormitory, fabricated of cast iron, on which an inch of sand is scattered, enabling them to recline comfortably instead of breaking up their nocturnal rest by clinging wobbly to the old-fashioned roost. One may observe that the sand-man entices them into the "land of nod-dings" without playing "Turkey in the Straw."

### Marian Has Strong C. of C.

Marian, the newest star in the firmament of San Fernando Valley cities, has joined the march of progress which is sweeping over the entire valley, and added new luster when, in a big mass meeting of its citizens, a strong and effective Chamber of Commerce was assured. The meeting was held in the auditorium of the Marian grammar school and was called to order by Henry Harwood. Mark Grimes, president of the Van Nuys Chamber, spoke of the importance of a strong civic organization in a community to secure the best efforts of its citizens and the best results from without.

### To Sell Half Interest

Frank A. Mullens, operating an automobile stage line between Burbank and Los Angeles, has asked permission of the railroad commission to sell a half interest in the business to C. A. Chambers for \$2500.

### Sunset Clubhouse Plans

The Sunset Canyon club will have a beautiful new clubhouse and social center which Secretary Allen says he hopes will be completed by July 15. The swimming pool will be ready for use in about two weeks and Mr. Allen says the golf course will be green within thirty days.

### Valley C. of C. to Meet

May 16 has been set as the date for the meeting of the Associated Chambers of Commerce for the San Fernando Valley which will hold their next session in Burbank.

School teachers of York, Pa., have come under the ban for bobbed hair at a recent meeting of the school directors of the county. Also, cigarette-smoking on the part of teachers is put on the blacklist.

## Individuality in inexpensive frocks

Recent arrivals in washable frocks show style features that will appeal to all who appreciate individuality in dress---

—DISTINCTIVE styles in durable ginghams combined with dainty white organdy

—some quite simple in design, others with many novel features in designing of collars, overskirts, sleeves, bells

—so many styles that EVERY woman is sure to find something altogether satisfactory

—so few of a kind that you can choose the style most desired without fear of meeting its counterpart on every street corner.

In quality of fabrics, in designing and in perfection of needlework, these newly arrived dresses are

very exceptional values at \$6.95 to \$12.50

## Champ Hootch Hound Tells How It's Done

By HARRY R. FLORY  
Written for International News Service  
NEW YORK, May 12.—Being the champion liquor sleuth of the world is so easy. It is all a matter of "tips" and disguises.

Izzy Einstein who bears this championship title, explained it all to International News Service today. Like Sherlock Holmes, he expects his dramatic adventures to continue their serial unfolding indefinitely. For he finds that the Arsene Lupins of the booze world develop the fine art of delivering the goods to a new phase as rapidly as he and his partner, Moe Smith, scotch old methods of bootlegging.

"We have put the corner saloon, which operated surreptitiously under the guise of an eating place, out of business," Einstein declared. "But the booze business has moved next door into drygoods stores, even shoe stores."

Einstein describes the disguises the pair of sleuths have used. Their most successful disguise and the biggest haul of the many that have resulted in the seizure of a total of \$1,000,000 worth of liquor and in the arrest of 1,900 Volstead law violators, constitutes the latest entry in their record book.

Einstein said he and Smith have played at being street car conductors, street cleaners and negroes.

"How do we get our tips? That's so easy," he said. "The best source is the disgruntled purchaser of 'bad stuff.' 'Fammer with a confirmed Volstead violator's source of supply, and likely as not he yells.

"Next day we get a letter from the aggrieved purchaser and a bootlegger is spotted, and arrested."

Izzy proudly proclaims that no other liquor agent in the country has a record to equal his, but he is not satisfied.

There are constantly new worlds to conquer, there are several large hauls he'd like to make.

"And some day I'll make 'em. It's easy," says the world's champion "hootch hound."

### WHAT'S TH' FARE THERE?

BELFAST, May 12.—Every year is leap year in Clogher valley out along the Ulster border. In this so-called "valley of dreams" it is the ancient custom for "women to propose and men to dispose." The 1922 spring men to propose is now on in full swing and all political troubles are forgotten for the time being. There comes a report out of this fair valley, however, that the 1922 crop of local swains is woefully deficient in kissing and the art of love making in general. The girls say they will gladly welcome wooers from the outside.

### GOES ON FARM LOAN BOARD

WASHINGTON, May 12.—President Harding today nominated Governor Robert A. Cooper of South Carolina to fill the vacancy in the farm loan board made vacant by the resignation of former Congressman Lever.

## "It gives the best service"

That's what your dealer will tell you about the "Silent Rich," the lawn-mower that is years in advance over the old-fashioned types you have perhaps used—in better construction features; in greater operating efficiency; in finer appearance; and in more enduring satisfaction.

The best possible aid for better lawns is a

### SILENT RICH LAWN MOWER

Everything desired in a lawn-mower with all the usual disadvantages eliminated, is to be found only in the "Silent Rich."

Such highly desirable advantages as High Speed, Continuous and Close Cutting, Effortless Operation, Noiseless Action, and many other extremely valuable features are exclusive "Silent Rich" characteristics.

Ask to see this better mower. Dealers now stock the "Silent Rich" and will be pleased to demonstrate its superior features. If your dealer does not handle them, let us know and we will see that you are supplied at once.

**POULTRY INTERESTS  
OF VALLEY FORM  
ORGANIZATION**

David Lowe Is Selected to  
Head Association; Notes of  
Different Sections

As it has been well demonstrated  
over a period of years that the San  
Fernando section is most ideal for  
pursuing the poultry business, the  
poultrymen of San Fernando, New-  
hall, Pacoima and Roscoe met in San  
Fernando recently, at the city hall,  
and organized a working body into  
what shall be known as the San Fer-  
nando Poultry association. Officers  
and committees were selected as fol-  
lows: David Lowe, president; Gar-  
rett J. Folmsbee, secretary and treas-  
urer; committee on membership and  
advertising, Mr. Brown, Fred Nor-  
com, Wilbur Potter and Mr. King.

**Lankershim Phone Exchange**  
The Pacific Telephone & Tele-  
graph company has leased from the  
Weddington Investment company a  
building to be erected on Wilcox ave-  
nue in Lankershim, for the exchange  
and maintenance headquarters. It  
is expected to have everything ready  
to open the exchange by August 1.  
Telephone patrons will be glad to  
learn that the Los Angeles connec-  
tions are to be through Hollywood.

**Building for Creamery Co.**  
The large plant of the Los Angeles  
Creamery company north of Van  
Nuys is taking on the appearance of  
a small city. Five new buildings at  
a cost of \$12,000 were put in con-  
struction last week, including a large  
cow barn, two hollow tile bunk  
houses, a hay shed and a six-room  
dwelling.

**Car of Cabbage Shipped**  
A carload of cabbage was shipped  
out over the S. P. last week from  
Owensmouth. However, the acre-  
age here is small and it is reported  
that the demand is very low. Let-  
tuce demand is also said to be low.  
Hay is moving rapidly at good  
prices.

**Plans Specialty Factory**  
C. C. Graham, a prominent man-  
ufacturer of Crete, Neb., has located  
in Van Nuys and is considering es-  
tablishing in that city a branch fac-  
tory to manufacture voting booths,  
automobile trailers and other arti-  
cles.

A remarkable bird found in Mexico  
is the bee-martin, which has a trick  
of ruffling up the feathers on top of  
its head into the exact semblance of  
a beautiful flower.

**A Sympathetic Knowledge  
of Architecture**

—is essential to the successful  
creation of an interior setting—  
that the furniture, hangings, color  
and disposition of the furnishing  
elements shall complement and  
harmonize with the architectural  
background.

**J. S. SCHULTZ**

**This Heiress to Wed Her Riding Master**

Miss Matilde McCormick, Chicago heiress and granddaughter of  
John D. Rockefeller, is shown here enjoying her vacation at Hot  
Springs, prior to her return to Switzerland and her riding-master  
fiance. Miss McCormick reflects the fashionable vogue for knitted  
outerwear in her slip-on sweater of exquisite color and design.

**Alameda Naval Base  
Is Doomed to Delay**

WASHINGTON, May 12. — Con-  
gressional approval of the \$100,000-  
naval base project at Alameda,  
Calif., doomed to defeat in the pend-  
ing naval appropriation bill, will be  
withheld for at least two years, ac-  
cording to opinions expressed by a  
majority of the senate naval approp-  
riations committee.

The project, earnestly advocated  
by naval authorities, will be held up  
because of the signing of the naval  
limitation and four-power Pacific  
treaties at the Washington confer-  
ence. The committee, it was said,  
will reject the proposal, due to the  
administration's desire not to con-  
flict with the spirit of the two treat-  
ies and to conserve national expendi-  
tures at this time.

Approval of the project in this  
year's appropriation bill will be lost  
through a technicality which will  
likewise defeat the proposals to erect  
an air base at Sand Point, Wash.,  
and a destroyer base at San Diego,  
Calif. The air base, it was indicated,  
may yet be established through sep-  
arate legislation. The technicality  
involved a point of order that the  
projects were "new legislation,"  
which is forbidden under the senate  
rules from inclusion in appropriation  
bills.

**Jack Dempsey Isn't  
to Meet Harry Wills**

LONDON, May 12.—"The report  
that Jack Dempsey will fight Harry  
Wills, an American negro, in Mon-  
treal, is all bunk," said Jack Kearns,  
Dempsey's manager, in an exclusive  
statement to International News  
Service today.

"I did not receive any offer. Of  
course, if the public wants it and  
the proper inducements are forth-  
coming, Dempsey will meet Wills.  
I have wired my representative in  
New York that I will not take any  
action regarding a match with Jess  
Willard until I return home. It  
looks to me like Dempsey's next fight  
will be either with Joe Beckett or  
Carpenter in London."

**FACING LUMBER SHORTAGE**

WASHINGTON, May 12.—In a let-  
ter to Senator Norris of Nebraska,  
Secretary of Agriculture Wallace de-  
clared that the United States was  
facing a shortage of lumber with in-  
creased cost of all wood products  
and urged passage of the Capper bill  
to protect American forests.  
"The United States is consuming  
wood four and one-half times as fast  
as it is being grown," said Wallace.  
"There are left today about 137,000-  
000 acres of virgin timber out of an  
original 882,000,000 acres."

**MUST MUZZLE DOGS  
OR PAY PENALTY,  
SAYS OFFICIAL**

Dr. J. E. Eckles Declares Public  
Will Be Compelled to Put  
Cages on Canines

Have you bought your muzzle yet?  
"Dogs must be muzzled," stated  
Dr. J. E. Eckles of 125 North Brand  
boulevard, city health officer. "The  
state and city have laid down the  
law and tells us that we must com-  
ply with it or have the county quar-  
antined. We have no alternative  
but to obey. This 'dog business' is  
going to be enforced to the limit and  
people may as well comply with it  
because it will save them trouble.  
Dogs running loose for several  
months to come have a chance to go  
to dog heaven. Anyone who feels  
that his dog is of a quality or kind  
immune to this regulation, is cer-  
tainly going to get a shock. Pro-  
tests or letters will have no effect."

"If we had a big epidemic of  
smallpox, people wouldn't say any-  
thing if we imposed a very rigorous  
quarantine. Hydrophobia is a far  
more dread disease than any other  
that is ordinarily epidemic. We have  
the case of a man in Los Angeles  
who was bitten by a dog last month.  
He was given the Pasteur treatment  
and it was thought that he was in  
no danger. A week or so later he  
suddenly developed hydrophobia and  
died a horrible death."

**To Employ Dog Catchers**  
"I like dogs myself and I would  
give anything to have the dog I had  
when I was a boy back with me  
again. But, one child is worth more  
than all the dogs in town."

"I suppose some people think that  
the health department is working in  
conjunction with hardware dealers.  
As a matter of fact, I don't even  
know where muzzles can be pur-  
chased."

As soon as residents have had a  
reasonable chance to buy muzzles,  
the municipal ordinance will be rig-  
idly enforced, according to Colonel  
J. D. Fraser, chief of police. He ex-  
pects to be authorized by the city  
council in the near future to employ  
several additional dog catchers.

The valley of the Amazon is said to  
be the largest undeveloped territory  
in the world and the greatest in soil,  
timber, mineral, nuts and precious  
metals.

# E. C. HALE, EN ROUTE EAST, CATCHES UP WITH APPETITE

### Gets As Far As Kansas on His Hike, Aboard Train, to Old Home Town

Somewhere in the Middle of the West, May 4, 1922.  
 Dear Folks: Well, here is my second letter of the series about my trip "back to the old home," and I guess I ended up my last letter by saying as how we would soon be at Albuquerque for dinner. We got there o. k. and the depot was quite an interesting place to look at on account of its bein' all filled up with Indian relics and Indians settin' around makin' blankets and sellin' dodads and thingumbobs to the simple tourists.

Well, there are a lot of people in Albuquerque, but nobody LIVES there. It is the city of silent men and dumb waiters. I bet the natives of that place don't know whether California is a town or the name of a soft drink, and care less.

The Indians are a mild mannered, inoffensive, unintelligent and greasy bunch of gazaboes who live in mud flats nearby, where the biggest excitement which they get out of life is to set around and watch the trains go by. And I reckon as how these people never get any further from home than the police station and no doubt they stick to these burrs all their lives like flies on a sheet of Tanglefoot. But maybe they are a happy lot after all, and why not?

Now, no doubt you will begin to worry about me when I tell you as how I ain't feelin' very good today, but the trouble is, my appetite is almost a total loss.

**Feels Like Bit of Menu**  
 Since I left my room, board and confinement back there in Glendale I have been livin' on soup, ice cream and a violent variety of pie, and now I got a cute digestion.

This mornin' I just felt like a cup of tea and this p. m. I feel like a piece of cheese. I'm in an awful depression. When I left home a neighbor lady gave me a couple lemons to put in my satchel, and she says to me if I got train sick I should suck a lemon. Well, I been suckin' a lemon all day, but I don't know whether it's 'cause I'm train sick or homesick.

On top of that the porter don't even speak to me since I give him that nickel tip and I can't figure out why, unless he discovered it was a counterfeit. And that ain't all. My troubles has just got to the commencement of the limit. The speed this here train has made since noon would make a snail with a broken leg blush with shame. And the Eagle Rock car would look like the Sunkissed Limited beside this string of tourist cages.

It seemed as how there has been nothin' but block signals and block-head operators all day. Accordin' to the railroad map it shows a straight line on where we been travelin' all day, but I'll bet I've saw more curves this p. m. than there is at Ocean Park on a hot Sunday in June.

The train went so slow a couple times that I looked out the window fully expectin' to find the engineer and conductor pickin' wild flowers along the wayside. I got so full of disgust that if wishes were horses, I'd got off and walked.

**Solves High Grade Mystery**  
 Well, at last I discovered as how we got two engines on our train in front and behind and it looks like they both been tryin' to pull in a couple different directions, but when we got to Las Vegas I found out at last what the trouble was. The facts of the matter is, we have been climbin' an awful steep grade all day, and by midnight we will get to the top of the summit at Trinidad. So, if we don't travel down the mountains on the other side tomorrow any faster than we climbed up today, I figure as how, without no doubt, I will be ready to finish the last thousand miles on roller skates.

7 a. m. next morning.

Well, last night I slept like a innocent baby and this a. m. I got up feelin' fulla vim and vigor and when I looked out of the window I saw a sight which was no less than the state of Kansas and which the same is no doubt as well known to some of my friends as starvation is in Moscow.

The first thing I saw of interest in Kansas was the lunch counter at Dodge City, 'cause I got my appetite back after we got out of New Mexico.

At Dodge City we had to turn our watches ahead a whole hour, but I don't know why, unless it is one of the railroad's alibis for makin' up lost time.

**Some Kansas Industries**  
 But for the sake of my lucky friends which has never been in Kansas, I will say that the principle industries is cows, corn, crows, mud, jack rabbits, tumble weeds and cyclone cellars. The biggest towns which we will pass through today will be Hutchinson, Emporia, Newton and Topeka, but I won't write no details about them places account of maybe some of the citizens of Glendale once lived there and I don't want to stir up no pangs of homesickness or fond regrets among anybody, but still I don't see how nobody back there in Glendale and which has lived in Kansas would ever come back here again, unless they went to stay a few months at Leavenworth.

Well, tonight we are supposed to get to Kansas City and maybe I will spend the week-end there, but if the spring floods haven't washed the state of Illinois off the map, I will no doubt be in Chicago by Monday or Tuesday.

Yours, in for a washout,  
 E. C. HALE.

# Peking City Gates to Be Opened Once More

PEKING, May 12.—With conditions rapidly approaching normal in the Peking area, it was expected today that the city gates, which were closed with the outbreak of civil war, will soon be reopened. Telegraph communication is being gradually resumed and the Peking-Shanghai railroad is now open.

Prosecution of Chang Tso-Lin supporters, who were numerous in the old Peking administration, continues.

Whether Yuan Shih-Kai, premier at the time of the attempted monarchial restoration in 1919, will accept the post which has been proffered him again was in doubt today. Yuan is old and a lover of peace and quiet. There is also some opposition on account of the belief that he is lacking the strength of character that is needed in the present crisis.

Wang Shih Chen has assumed the duties of minister of war. He is the senior general of Wu Pei Fu's party.

Chang Tso-Lin, although deprived of all rank and honors as well as the governorship of the three Manchurian provinces by presidential mandate, continues his withdrawal to Mukden behind a defensive line established by his forces running through Kai-Ping, Yu Yih and Lwan Chow and indications are that it will require more than a mere presidential mandate to unseat him from power in Manchuria.

No further fighting is anticipated unless Wu's forces press too closely in their pursuit of Chang.

# Soviet Russia Plans United States Campaign

MOSCOW, May 12.—A campaign to reconcile the United States to soviet Russia as the first step towards securing American recognition of the Moscow government will be undertaken shortly by the all-Russian executive committee, it was learned today.

The meeting already has been called to "consider projects aimed at the reconciliation of the United States and other nations."

It was Chairman Kalinin of the all-Russian central executive committee who revealed that the committee will shortly undertake to conciliate the powers. The committee is assuming executive functions and is preparing to reduce the size of the Red army one-half if the Genoa conference proves a success.

Legislation will be proposed to give foreign capital full guarantees. In conclusion, Kalinin expressed the ardent wish "that the United States will not be the last nation to come in to Russia."

# Japanese Cabinet Is Close to End, Belief

TOKIO, May 12.—The days of the Takahashi cabinet are numbered. The power of Premier Takahashi has been rapidly declining since the defeat of his plan for reorganization of his cabinet as a means of meeting the storm of criticism that has been directed against it.

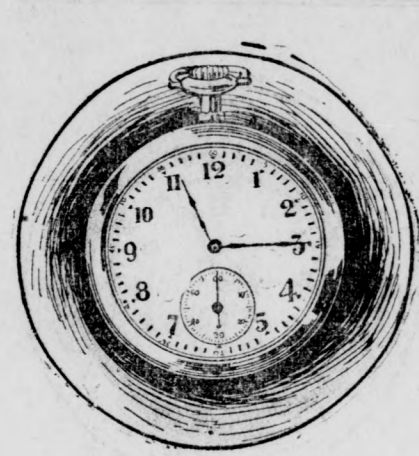

It is the opinion of well informed observers that he is remaining at the head of the cabinet merely as a stop gap until the Seiyu-Kai party finds a suitable man, willing to enter the party and form a new cabinet. Numerous possibilities are said to have been discussed by the party leaders but no definite decision reached.

Meanwhile a possible situation is being created which may cause a command to issue from the throne to Viscount Kato, president of the Kensei-Kai, to form a ministry. The Kensei-Kai party was in power until the fall of the Okuma cabinet.

# TO SEARCH FOR TREASURE

LONDON, May 12.—The Salvaging Institute announced today it has the exclusive rights to attempt to salvage treasure from the Lusitania and that it would fight the attempt of any other company to do so. It had been reported that another company would try to salvage the valuables on the liner.

**RADIO EXPLAINED**  
By E. H. LEWIS  
INSTRUCTOR NEW YORK, Y. M. C. A. RADIO SCHOOL

**ANTENNA CHARACTERISTICS**

The so-called "inverted L" type of antenna exhibits directional transmitting and receiving effects if the horizontal portion is several times the length of the vertical portion. The direction of best transmission or reception is opposite to the direction in which the free end of the horizontal portion points. The "lead-in" of a receiving antenna should therefore be connected to that end of the horizontal portion which is nearest the sending station. The "T" type exhibits no very marked directional effects, unless the horizontal portion on each side of the connection to the lead-in is many times longer than the vertical portion (or lead-in). In this case the directions of best transmission and reception are those in which both free ends point. That is, if there are two sending stations of same power and other characteristics in each of those two directions from the receiving antenna, the lead-in is connected to a point of the horizontal portion which is equally nearest to each station. The umbrella antenna exhibits no directional effects, and transmission or reception is accomplished equally well from all points of the compass. In all types of antennae it is essential that the elevated conductors and the "lead-in" be sufficiently well insulated from the earth to prevent leakage of current. It is natural, however, to expect that a receiving antenna will not require as careful insulation as one used for transmitting. The voltage in the former is far less than that in the latter. There are various modifications of these fundamental types of antennae, but in reception it is not necessary to provide an elaborate system. In fact, all that is necessary is a single wire antenna and lead-in, which may be either an "L" or a "T," whichever is most convenient. It may even be what is known as a "vertical" antenna, which is nothing more than a wire suspended more or less vertically from an elevated support. In this case the antenna might be said to be all lead-in, although the lead-in is also, in any case, a portion of an antenna.

**NEW APPARATUS AND DEVICES**  
By RALPH BROWN  
RADIO ENGINEER, CUTTING AND WASHINGTON RADIO CORR

**A VERNIER VARIOMETER**

The radio experimenter seems to be demanding extremely fine adjustments of everything in a radio set. A vernier variometer is, however, something very novel, indeed. Its advantages are, of course, quite apparent in certain types of circuits. The illustration shows the type which comes unmounted and may be used in the construction of a cabinet receiving set. The mounted type is exactly the same, except that it has a front and back support and binding posts for connections. Only the unmounted type is shown, since the construction can best be seen in that type. The vernier variometer is really a miniature of a regular variometer, with some slight constructional changes, in addition to size reduction. There are four single layer coils, wound on small bakelite bobbins. The inductance range is equal to that obtained between two scale degrees on the usual type of variometer dial. The two upper coils are fixed in position and form the stator, while the two lower coils are mounted on a shaft and form the rotor. The shaft, which passes through a sleeve, has a bakelite knob mounted at its other end. The use of such a vernier inductance adjustment eliminates all shunt capacities in a short wave regenerative receiver. It is the latest device for tuning and "holding" continuous waves after they are once tuned.

**Questions on Radio and Their Answers**

**Question:** Please tell me the best kind of a loop antenna to use inside a room?—D. W. C., Glendale.  
**Answer:** The best inside antenna to use in a room is a loop built on a four-foot frame. You can use No. 14 or 16 plain copper wire about one hundred feet in length.  
**Question:** With the tickler coil connected in series with the plate of my tube I can not get my tube to oscillate; what is the cause of this?—L. D., Eagle Rock.  
**Answer:** The energy in the plate circuit is flowing in the wrong direction through the tickler coil and the resultant field around the coil will buck the energy flowing in the secondary, instead of affording the proper feed-back. Try reversing your tickler leads.  
**Question:** Can I use a small variable condenser for the grid condenser?—B. T., Glendale.  
**Answer:** Yes; it can be used with satisfactory results, and shunt it with the usual grid leak.  
**Question:** My aerial is insulated at both ends, and still I can not get the music very good; are porcelain cleats good for this purpose?—A. M., Glendale.  
**Answer:** Ordinary porcelain cleats will serve the purpose, but several of them in series at each end of the wires, or wire and make sure that all your antenna connections are well soldered.  
**Question:** Can copper sleeves be used for making the aerial connection, the same as in telephone or power work?—George, Tropic.  
**Answer:** Yes; a sleeve connection when properly made will do the work very well; if a soldering outfit is not available.

**Radio May Prove of Big Help to Deaf**

By GEORGE VAN SANDS  
Radio Editor The Evening News  
How many of us are there with poor eyesight? That is easy, you say, simply count the people wearing glasses and the question will be answered, and figures on this point show that just about three people out of five wear glasses. Now here is a question that becomes a little more intricate—how many people are there who are hard-of-hearing? Pick up practically any magazine, and you will find all the way from one to half a dozen advertisements of concerns that sell different devices to aid the deaf; go to the trouble of looking up the financial standing of almost any of these concerns and you will find that the commercial agencies rate them very high and they are all doing a big business, and authentic figures on this subject show conclusively that there are just about as many people who are hard-of-hearing as there are people who have poor eyesight.

Most of these hearing devices to a certain extent, do aid the deaf, but it is a fact that no hearing device, as yet, has ever been produced that has been acknowledged as an absolute unqualified success, and any physician will tell you that if the little bones of the inner ear are badly paralyzed, or the ear drum has been badly damaged, nothing can be done.

Practically all of these hearing devices up to this time have all been based upon some principle of amplifying the sound waves, and while the vacuum tube principle of sound wave reception has been employed in radio for a number of years, for some reason or other, these hearing device manufacturers seemed to have been blind to applying this same principle to a hearing device to aid the deaf. I understand that a patent has been applied for that covers this identical feature, and while, of course, The Evening News can not vouch for the practicability of such a device, it appears, to me, that this is a wonderful idea, and I sincerely hope that it will result in giving to the deaf something that up to this time has been a hopeless dream.

As those of us here in Glendale, who are blessed with normal hearing, listen in on a wireless telephone using this vacuum tube principle, and hear music and voices being broadcasted from points hundreds of miles away, and it comes in clear and distinct, I believe we have good reason to believe and hope that this same principle of audion-tube sound wave reception applied to a hearing device for the deaf, will mean that radio is going to be the long-sought-for medium that will accomplish this aid to mankind.

**Deposed Premier Gets Protection of Japanese**

TOKIO, May 12.—Liang Shih-Yi, deposed premier of the Peking Chinese government, following the defeat of his backer, Chang Tso-Lin, arrived at Kobe today as a refugee. Protection was accorded him by the Japanese police there, it being explained that the same protection was afforded the Anfuites when they were defeated by the Feng Tiens. Liang Shih-Yi had been absent from Peking for some time previous to Wu Pei Fu's victory on "sick leave." He was reported in Shanghai and evidently made his way to Kobe from that province of China which was not affected by the civil war. His arrest and prosecution had been ordered by President Hsu.

**LLOYD GEORGE HAS HOPES**

LONDON, May 12.—Premier Lloyd George today notified Downing street officials that he has hopes for a Russian settlement if a loan is given to Russia. The premier does not expect the Genoa conference to end for some time.

An exchange telegraph dispatch from Genoa said that George Tchitcherine, head of the Russian delegation, conferred with Foreign Minister Schanzer of Italy, presumably to present the modified Russian reply to the allied conditions for eventual recognition of the Moscow government.

ANNOUNCING THE FORMAL OPENING OF  
**“PENDROY’S”**  
 SATURDAY, MAY 13th, 1922  
 7 to 11 p. m.

**YOU** are cordially invited to attend the long awaited opening of this modern Department Store, which we have been striving for months to fully equip.

We take the greatest pleasure in inviting you to view this complete store, which we have endeavored to make as convenient and attractive as the high standards of this community demand. The doors have been thrown open, though our building is not yet entirely completed, nor all our stock and fixtures in place. However, we are late now and feel that we should open to the long waiting people of Glendale and vicinity, finishing up the smaller items later. We await your inspection and approval, feeling sure our efforts to establish a store in this vicinity, “THE FASTEST GROWING CITY IN AMERICA”, will justify our belief that you are ready and willing to keep Glendale’s trade at home, more than ever. We will stock the best known and most reliable lines of merchandise obtainable upon the market at prices that will justify our meriting a goodly share of your valued patronage.

We will make every effort to earn your confidence in truthful advertising, having the merchandise exactly as represented.

We cordially extend to one and all an invitation to make use of our store in the various departments of service which we have provided for the convenience of the shopping public.

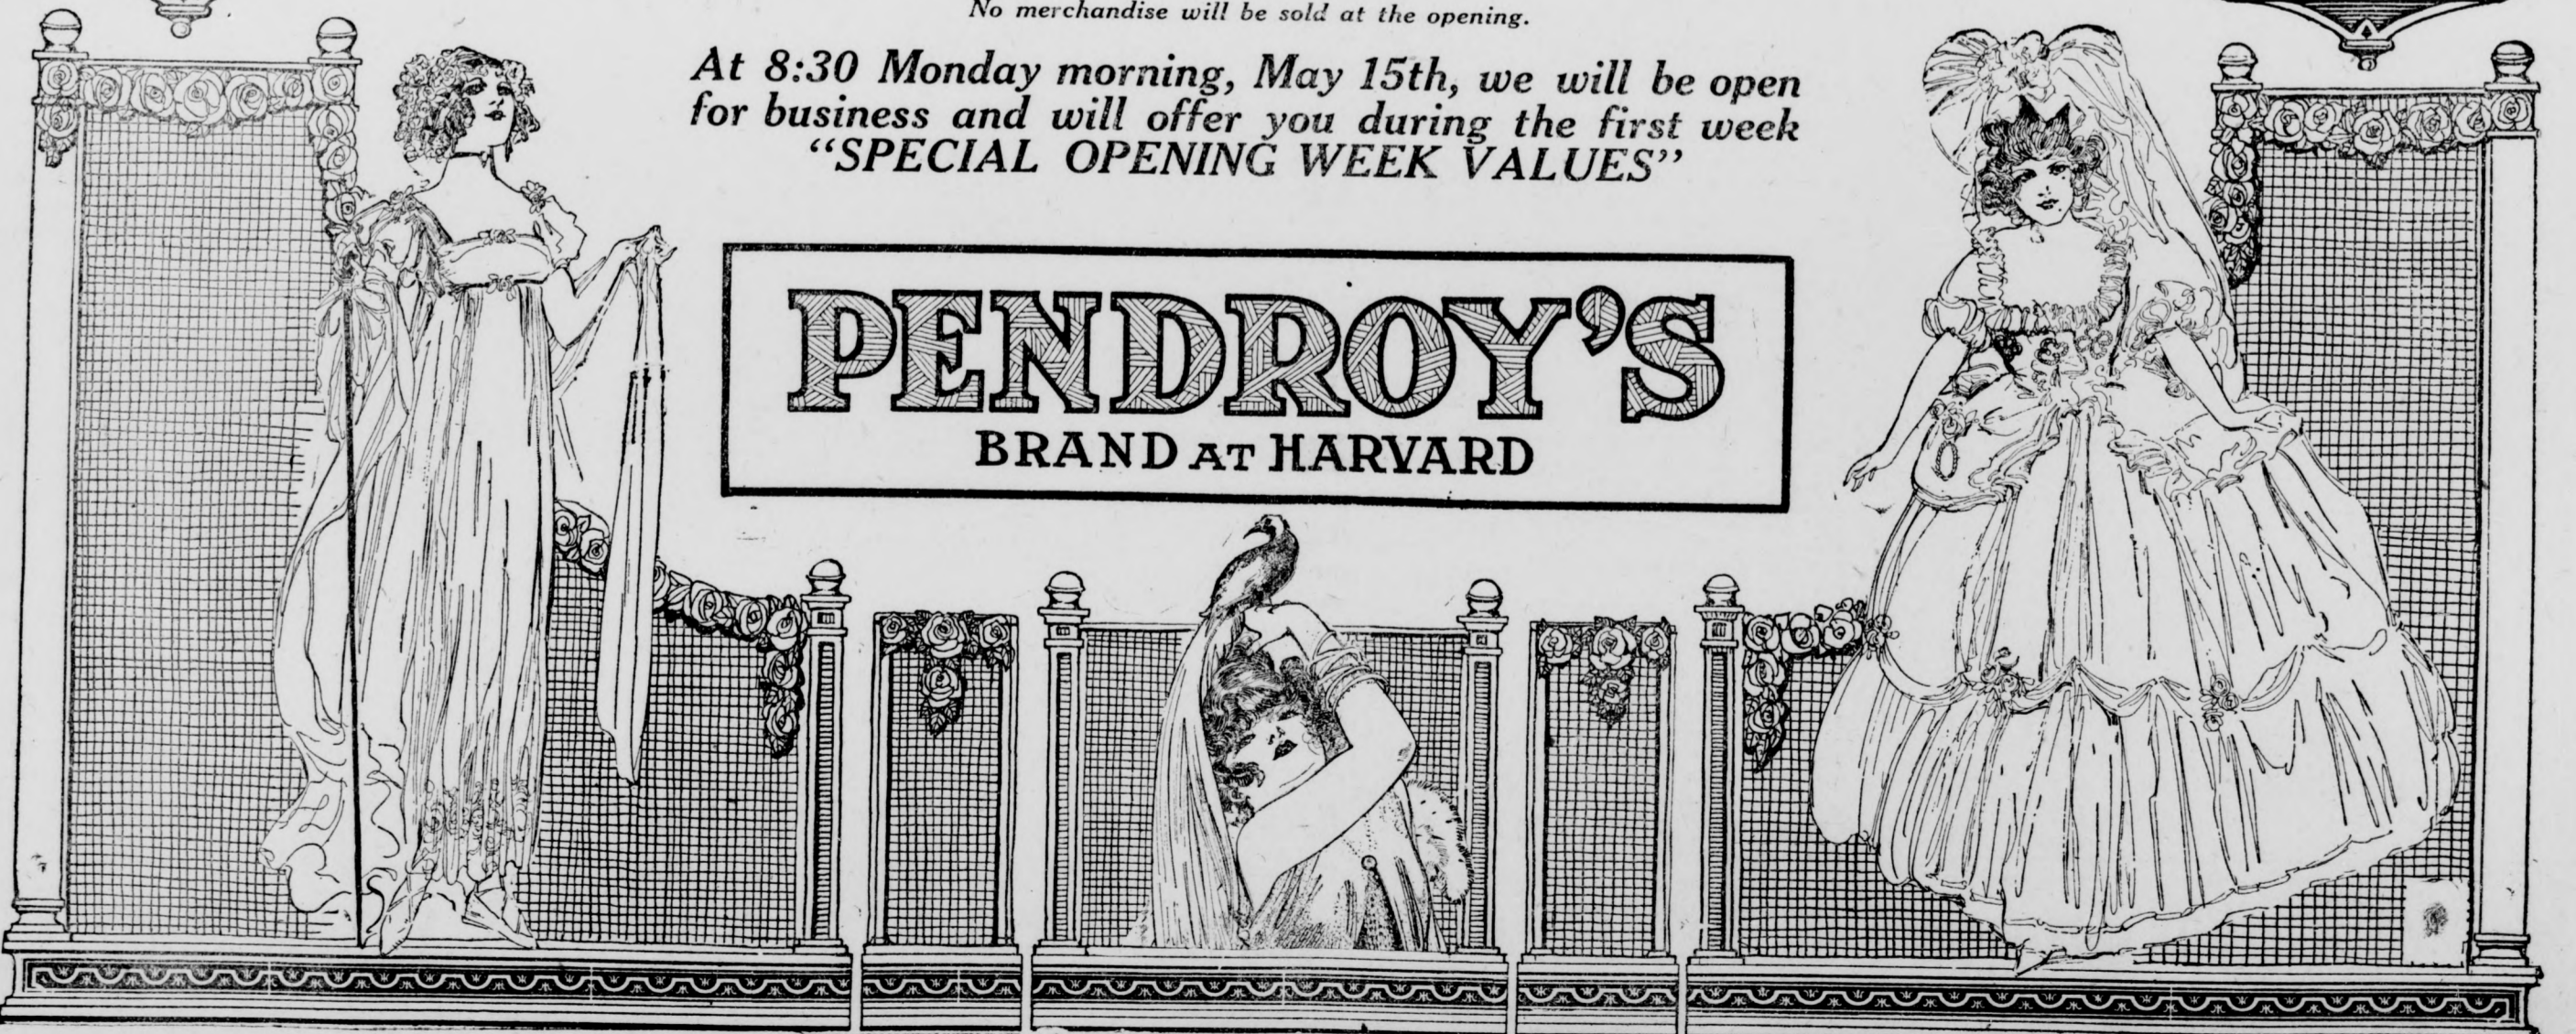

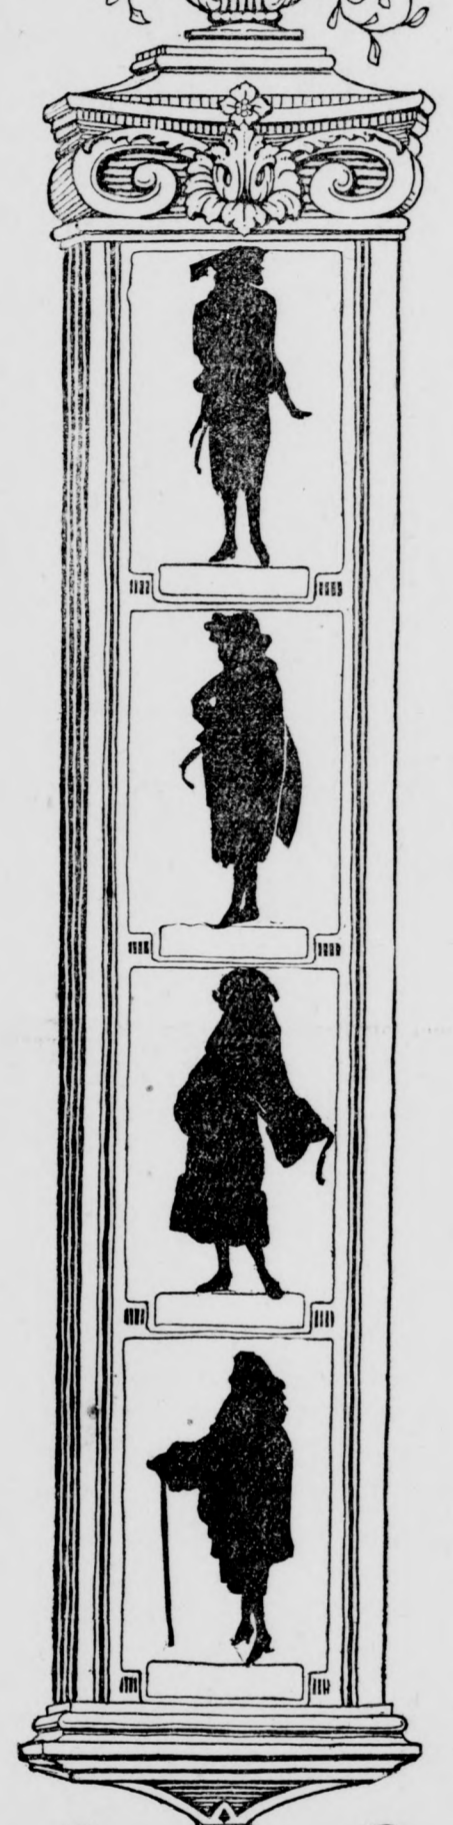

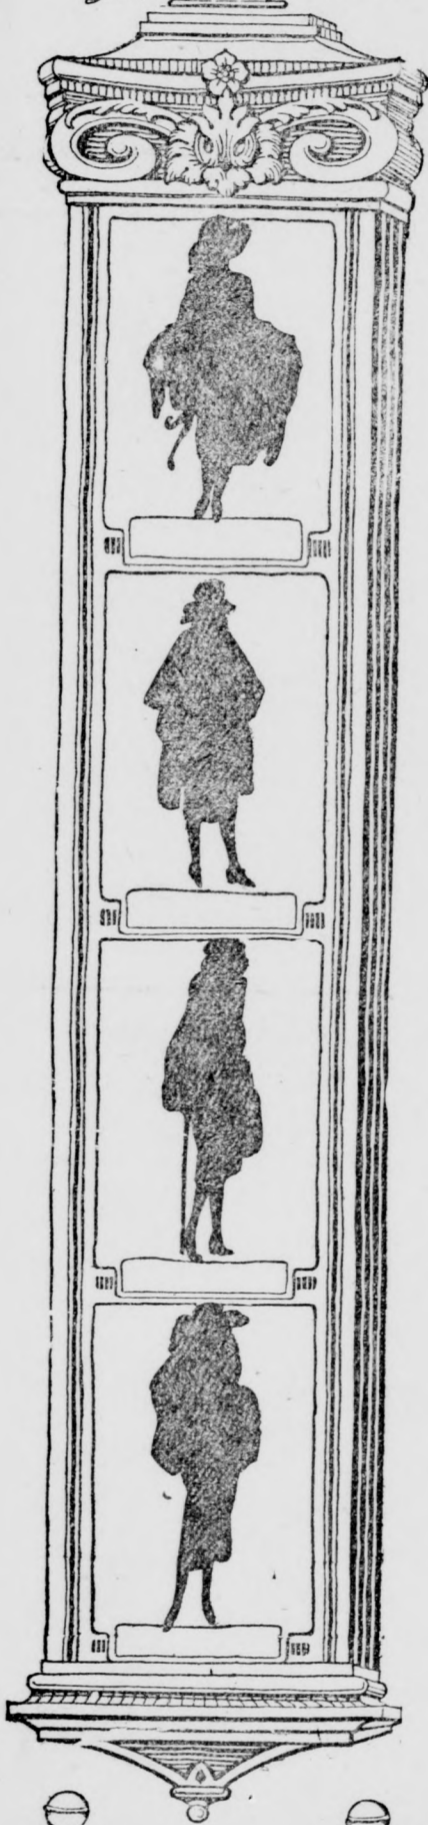

A complete ladies’ lounge is provided upon the second floor just as you step off the elevator. Phone service, writing desk, comfortable rocking chairs and reading matter may be had here.

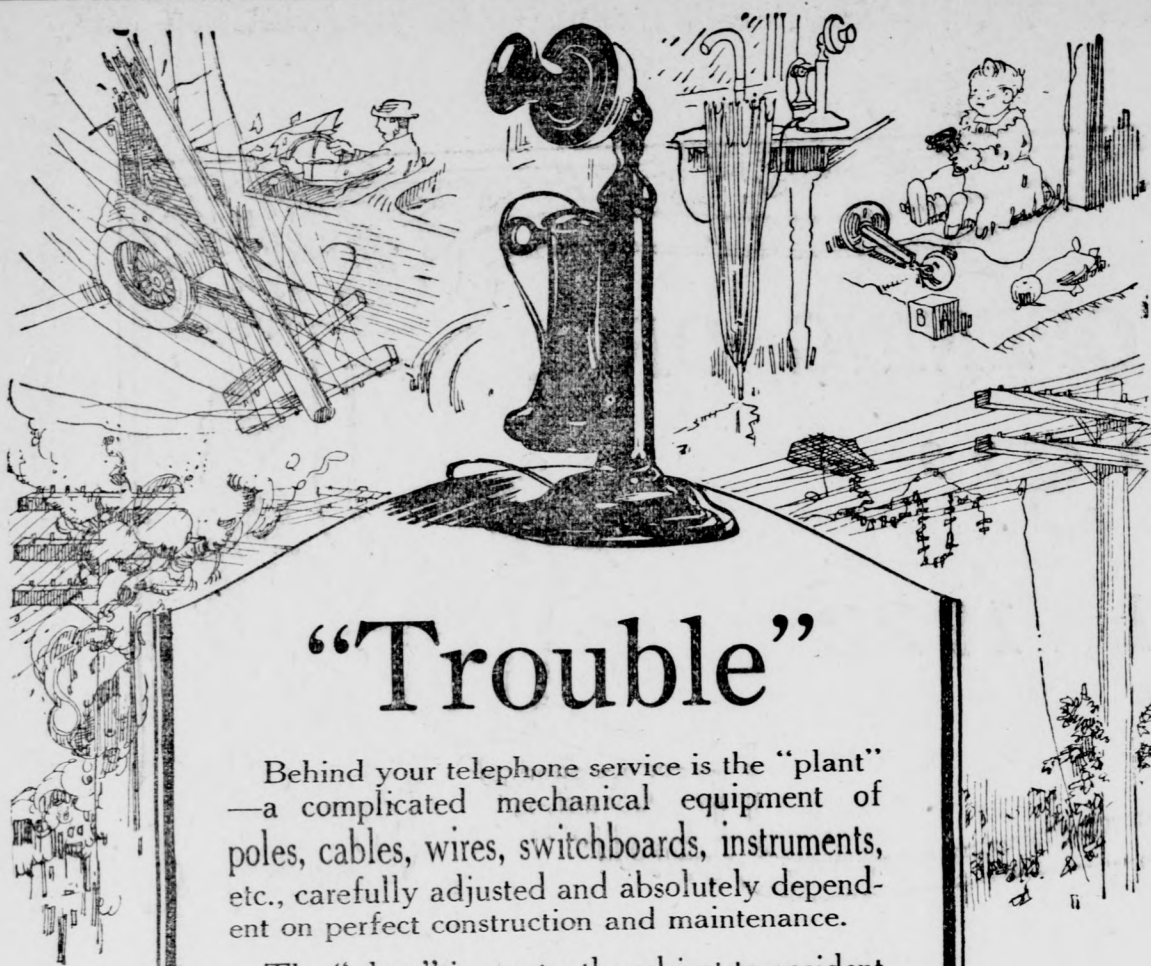

Our own free delivery service has been provided and, if you are unable to come to the store, we have a private switch board operator, who will instantly connect you with a personal shopping department, where an experienced person will take care of your needs at once.

No merchandise will be sold at the opening.

At 8:30 Monday morning, May 15th, we will be open for business and will offer you during the first week “SPECIAL OPENING WEEK VALUES”

## "Trouble"

Behind your telephone service is the "plant"—a complicated mechanical equipment of poles, cables, wires, switchboards, instruments, etc., carefully adjusted and absolutely dependent on perfect construction and maintenance.

The "plant" is constantly subject to accident and outside interference. Storms, fires, the carelessness of workmen, the pranks of children, concealed defects of material—all play their part.

The telephone company maintains a skilled force whose sole duty is to quickly restore service interrupted from any cause. Your lines are constantly watched and tested.

In the case of trouble we are generally the first to know it, but a notification to our Complaint Department when there is anything wrong will be appreciated.

The Pacific Telephone  
And Telegraph Company

## WRECKED SAILORS ARE TWO WEEKS IN OPEN BOAT

On 750-Mile Pull to Fijis When  
They Are Picked Up by a  
British Warship

By HARRY L. ROGERS.  
Written for International News Service  
WASHINGTON, D. C.—A tale of shipwreck and adventure in the South Seas such as Stevenson loved to tell is contained in a report just received here from the American consul at Wellington, New Zealand, on the American schooner Columbia River, which went ashore on Sunday Island recently.

Aground on a barren, uninhabited island, the crew drew lots, and six sailors and the captain took an open boat and set out for the nearest port, Suva, in the Fijis, 750 miles away.

"The schooner was bound from Auckland to Portland," the official report says. All went well, survivors say, till just before dawn on the third day out, when the watch suddenly reported: "Island close to on port beam!"

"The startled captain leaped from his berth and ran to the wheel—but too late to save the ship. In fact, so near was the beach that even before the anchor could be let go the schooner piled up, her bowsprit hard and fast on the beach of Sunday Island.

**Wander for Days**  
"Shaken but safe, the officers and crew dropped over the bows and down on the beach—to wander for days over the barren rock. Empty of all life, it was, except for a few sad, emaciated goats, too blue from their own unhappy lot even to beat a raucous welcome to the shipwrecked Americans.

"A ship calls once a year at Sunday Island, the captain knew; but he did not know the time of the year. Suva, in the Fijis, 750 miles away, was the nearest civilization! On the wreck of the schooner there was food for a month—what to do!

"Like nearly all American crowds in times of stress, they talked it over—everybody from the captain to the cook. And six sailors were selected to take an open lifeboat and strike across the stormy seas for Suva—750 miles away.

"Equipped with food, kerosene, distress signals, sea anchors, an oil stove and an extra mast and sail, the little twenty-foot craft set boldly out with its crew of six and the captain, leaving six men to wait on the barren island and pray for redemption.

"Two sails were set, and the little company, dividing into two watches, worked at the oars when the wind failed. Each watch comprised three men, one man relieving at the oars every half hour. The wind was not always kind; once for two long days they lay becalmed. Again, having rowed twenty-five miles in the teeth of a gale they were driven back ten miles. Rain added to their discomfort. When the sun shone the heat was pitiless; and they were glad to convert the sails, when they were not in use, into covers to protect them from the sun. At night the cold was intense.

**Fourteen Dreary Days**  
Day after day they struggled on toward Suva, sighting no sail in that broad expanse of water. For fourteen dreary days the perilous trip lasted, and at last the adventurers arrived at their haven. The British warship Chatham, the first vessel encountered, responded to their hail. Few words were required in explanation to bring forth a hearty welcome. Weary and sore, they got aboard the warship only to fall to the deck exhausted when they reached safety.

"The crew were made comfortable, every hospitality being shown by the Britishers, who promised to sail next day for Sunday Island to the rescue of the mariners still marooned there, while the seven men proceeded to Auckland on the U. S. S. Niagara, to report the disaster to the ship's owners through Consul General Wilber.

"In a puritanical sense, the island was well named—as regards life for the six men left behind. There was little for them to do but live on board the vessel till a southwest gale capsized the wreck and made it necessary for them, to take off the remaining stores and water before the craft was entirely demolished. The dinghy was rigged up with a sail and mast to be used in two months' time should nothing be heard from the first party. On the seventeenth day came an end to ennui and the sad society of bleating goats. The Chatham, smoking up on the horizon, took the exiles off the rock and away to join their shipmates in Auckland."

### LEAVES LARGE FORTUNE

NEW YORK, May 12.—H. P. Davison, noted financier and partner of J. P. Morgan, left a fortune of approximately \$10,000,000, according to estimates of intimate friends. He carried \$2,000,000 insurance.

By his own wish, Davison was buried in the Locust Valley cemetery after services at the church of St. John of Lattintown which will seat only 250 persons. Honorary pallbearers include J. P. Morgan and partners and several men known as great leaders in Wall Street.

### DAWES PREPARES TO QUIT

WASHINGTON, May 12.—General Charles G. Dawes, head of the budget bureau, is getting ready to pack up and go home. He denied today that he wants to be secretary of the treasury, governor of the federal reserve board or any of the other offices for which rumors have suggested him. "I'll stick to my program, clean up this economy job by July 1 and hike it for Chicago," said Dawes.

### MOONEY CASE IS UP AGAIN

SAN FRANCISCO, May 12.—On application of Byron B. Parker, attorney for Thomas Mooney, an application for a writ of audita querela in behalf of the former labor leader, now serving a life sentence in San Quentin for alleged complicity in the preparedness day bombing here, was dismissed in the appellate court. It was stated this move was made to place squarely before Governor Stephens the application now pending for pardon of Mooney and relieve the governor of embarrassment of any pending legal action in the case. The action was taken at the direction of Mooney, according to Parker.

### TWO HURT IN COLLISION

LOS ANGELES, May 12.—In a dangerous head-on collision between two automobiles on a sharp curve of the ridge route grade near Sandbergs station, two men, Sam Renfro of Los Angeles and F. Bombard of Long Beach were seriously injured, according to the sheriff's office. The two men were riding in one car which collided with another machine driven by F. C. Keenan, who was uninjured.

Women of New Zealand have had the vote for thirty years and for a long time have been elected to various semi-public offices, such as school boards and hospital boards.

### NO AGREEMENT REACHED

WASHINGTON, May 12.—Although negotiations are progressing satisfactorily between the United States and Great Britain with respect to the developments of oil fields in the Near East no general agreement has been reached as reported in apparently official London dispatches, it was announced at the state department today.

Arrangements were being made, it was stated, for the protection of American rights in Palestine (British mandate), but no agreement has been reported affecting Mesopotamia or other British oil fields outside of Russia.

### Girl Tells Teachings Of Shoplifter School

SAN FRANCISCO, May 12.—An amazing tale of how a former Portland, Ore., high school girl was forced to take an oath to devote fifteen years of her life to the "shoplifters' association" under penalty of death after graduation from a Chicago school was told here today by Rae Dupont, or "Sunshine" Harriet Crothers in confessing the theft single-handed of \$15,000 worth of goods from local department stores last week.

The girl said she had a nervous breakdown in Chicago and when she regained her faculties was being cared for by a man named Gus Sanders, who, she says, is head of the biggest gang of shoplifters in the United States. She was forced by him to attend his "school" with ten other girls and upon graduation took the shoplifters' oath. The "school" was fitted out like a modern department store.

Miss Dupont told of returning to her parents in Portland and how her happiness there was wrecked by the constant appearance and threats of members of the gang. Finally she was forced to rejoin them here and the past week averaged seven dresses a day. Police are seeking the other members of the gang.

### CONSTABULARY IS OPPOSED

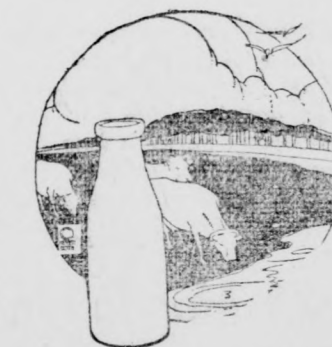

CHARLESTOWN, W. Va., May 12.—Peaceful Charlestown, scene of the murder and treason trials of the militant miners who marched in battle array on Mingo last summer, was virtually in open revolt today against the West Virginia state constabulary and clamoring for their removal from the town.

Public feeling is running high, following the arrest of Mack B. Lilly, a lieutenant of the constabulary, for disorderly conduct. Guns were brought into play, but not used, in Lilly's arrest by local police officials.

Daleys Stores Offer Chef Wyman's Services

A. L. Wyman, M. C. A. (Master of Culinary Arts, a European Degree), has been engaged by the Daleys Stores company to co-operate with their manufacturing industry...

Work has begun on the preparation of copies of his recipes in sufficient numbers to supply Daleys customers on request. They will be available at their stores within a week.

Something new, something different; pure foods for wholesome meals, is what every woman is looking for, says Chef Wyman.

A Wilkesbarre woman, Miss S. M. R. O'Hara, has won the distinction of being the first lawyer of her sex to argue a case before the U. S. Circuit Court of Appeals in Philadelphia.

VOLUMES ON DRAMA, MYSTERY STORIES BEING OFFERED

Wide Range Is Given Readers at the Municipal Library; Books for Young Folks

Books on drama and mystery stories in a variety of titles are included in the volumes which have recently been released at the public library on Harvard street.

"The Image," and other plays by Lady Gregory. A series of Irish plays also including Hamrahan's Oath, Shanwalla and The Wrens.

"The Heritage of Cain," a mystery story by Isabel Ostrander. Other books by this same author include "The Clue in the Air," and "The Island of Intrigue."

"The Million Dollar Suitcase," by Alice MacGowan and Perry Newberry. A keen mystery story involving interesting, likeable people and a setting of business in San Francisco and its suburbs.

"At the Villa Rose," by A. E. Mason. A story of crime and detective work of vividness and absorbing interest.

"The Mystery Girl," a detective story, by Carolyn Wells. "Tex," by Clarence E. Mulford. A thrilling chapter from life on the plains in the west during the days when nimble triggers were arbiters of justice.

Two books on radio design and hook-ups will undoubtedly prove to be very popular. The author is M. B. Sleeper, "Design Data for Radio Transmitters and Receivers," and "Radio Hook-ups."

"How to Train Your Mind," by Marvin Dana. A practical method for the development of mental power. "Finding Your Job," by Norman G. Shidle.

"A Dictionary of Classified Quotations," by W. Gurney Benham. A selection of extracts from the works of ancient, modern, English and foreign authors arranged under appropriate subject heads.

"The Ministry," by Charles Lewis Slattery. This book gives a guide to the preparation for the clergyman and the opportunities it gives for religious and social work in the community.

An interesting collection of new volumes has also been released in the young folks' department, including the following books:

"Carita's New World," by Lucy M. Blanchard. "The Ministry," by Charles Lewis Slattery. This book gives a guide to the preparation for the clergyman and the opportunities it gives for religious and social work in the community.

"The Boy Apprenticed to an Enchanter," by Padraic Colum. "Camping on Western Trails," by Joseph A. Altsheler. "Peeps at Many Lands," Australia and New Zealand.

"The Old Mine's Secret," by Edna Turpin. "Oh Virginia!" by Helen Sherman Griffith. A story for girls from 9 to 14 years.

"The King of Ireland's Son," by Padraic Colum. A romance such as the old story tellers of Ireland or of Gaelic Scotland might have told. "Five Funny Fables and How to Play Them," by F. B. Kirkman.

"The Rainbow String," by Algeron Tassin. "The Children of Odin," by Padraic Colum. The children's book of modern myths.

"St. Paul, the Hero," by Rufus M. Jones. The story of the great Apostle in modern fashion. "Scoutin' Thrills," by Capt. G. B. McKean. A vivid account of certain phases of the interesting and important work performed by scouts in the great war.

### This Mannequin Likes Knitted Outerwear

Lady Joan Capell, the 21-year-old daughter of the Dowager Countess of Essex, and close friends of both the Prince of Wales and Princess Mary, was for a time mentioned as a possible consort for the heir to the British throne. Lady Joan came to New York from England to act as mannequin for a fashionable English modiste. And knowing what's what, she dresses in knitted outerwear.

### Murder Mystery Will Again Be Investigated

SAN FRANCISCO, May 12.—Re-opening the three-year old murder mystery of the killing of Sara Satira Coburn, wealthy widow of Loren Coburn of Pescadero, William Herron and attorney was to appear tomorrow before Judge O'Brien with witnesses to substantiate the accusation of murder sworn to by Herron charging Andrew J. Sterling and C. H. Widemann with the crime.

Sterling was the former manager of the Coburn ranch and Widemann the principal beneficiary under the will. The latter is said to be in Kansas City at present, en route to Europe.

Judge O'Brien ordered Herron, who said he had been retained by eastern heirs to the Coburn estate, to bring witnesses into court to substantiate his charge before warrants would be issued. Mrs. Coburn, aged 96, was brutally beaten to death with a club the night of June 3, 1919. She left a million dollar estate.

## FINANCIAL BACKING BEING URGED FOR EASTSIDE HOTEL

Advancement Association Hear  
Committee Report; Pledges  
to Purchase Stock

(Continued from Page 1)  
by the committee:  
"The East Glendale Advancement association wishing to aid in every possible way the erection of a building at the corner of Broadway and Glendale avenue have appointed a committee to plan and devise ways and means of financing the purchase of ground and erecting a building."  
"The committee consisting of Mrs. M. L. Ticht, Dr. Henry R. Harrower, F. H. Vesper, C. W. Inguedue, R. M. Brown, Spencer Robinson, S. C. Kinch, P. W. McIntyre, Dr. T. C. Young, J. L. McOmber, P. J. Hayselden and Herman Nelson after due consideration recommends that a corporation be formed to take over and purchase the ground at the corner of Glendale avenue and Broadway which ground is now owned by the Ambrosini Hotel company."  
**Three or Four Stories**  
"It is recommended also that a three or four story building be erected to cost in the neighborhood of \$200,000, having store rooms on the ground floor and the upper floors to be built suitable for a hotel and apartments, its plans to be made and accepted by the permanent organization."

"It is further the unanimous opinion of all the members of the committee that the erection of such a building will greatly enhance the value of property on East Broadway, Glendale avenue and vicinity."  
"Therefore, the property owners thus benefited should subscribe for the stock of the corporation which is to purchase the ground and erect the building, and in order to effect this the committee recommends that pledges for stock be taken with the understanding that until the opinion of this committee, this project meets with sufficient support to effect a permanent organization."

## French Actress Paid 64,000 Francs Monthly

PARIS—The highest fee ever paid to a music-hall artist in France is to be Mistinguett's. In a new revue to be put on in Paris she will receive sixty-four thousand francs a month, approximately five thousand dollars.  
She has not accepted the contract offered her to appear in New York, preferring to act in her own country when such huge fees are offered. She will star in Apache roles, in which she excels.

**SEEKS TO RECOVER BIG SUM**  
WASHINGTON, May 12.—An appropriation of \$16,950,000 for the development of naval aviation was urged on the senate appropriation committee by Rear Admiral Wm. A. Moffatt, chief of the naval bureau of aeronautics. It will be used to purchase new planes, enlarge air stations and research work.

## School Whips Found That Torture Pupils

INDIANAPOLIS—Two whips resembling the "cat-o-nine-tails" of old, capable of inflicting cruel punishment upon childish flesh, are on exhibition at the offices of the State Board of Education.  
The lashes were confiscated at the St. Michael's Independent Polish school at East Chicago, according to E. B. Wetherow, State School Inspector, who said the conditions of the whips indicated they had been used in punishing pupils. The first was taken by the Lake county attendance officer who, upon his return to the school, found that it had been replaced and confiscated the other.  
There is no law to prevent the use of whips in schools, notwithstanding that such practice is contrary to public policy.

## Feat of Blind Chess Player Is Remarkable

PARIS—Leading French psychologists are expressing great interest in the memory feat of Alekhine, the Russian chess player, whose success in playing simultaneously twelve games of "blind" chess is the talk of Paris.  
With his back turned to the boards, for more than four hours Alekhine sat directing his assistants how to move the chess men against his antagonists. The exact position of all the chess men of all the opponents was carried in his mind with never a slip. He won eleven and secured a draw on the twelfth game.

## Veteran, 82, to Walk to Capital for Pension

CLEVELAND—L. N. Kaster, 82, veteran of the Civil War, stopped here the other night on his way from the Dayton Soldiers' Home to Washington, where he will personally plead for a pension, which, he says, has been denied him unjustly. Kaster is walking the entire distance and is making about twenty-five miles daily.  
He says that he served throughout the war with Company B, First South Dakota Infantry, but through some mixup in the records, has failed to receive a pension.  
He hopes to lay his case personally before the President.

## FLOOD DANGER IS PASSED

VISALIA, May 12.—A sudden cessation of the hot spell of last week has prevented the overflowing of rivers which were running bank full and threatening flood conditions generally in Tulare county.  
The danger now is regarded as past, however, as the Kaweah river, near here, has already dropped two feet, when the effect of the cooler weather was first noticed in the stream's flow.

## TO PROPOSE COMMISSION

LONDON, May 12.—Premier Lloyd George will propose to the Genoa conference the appointment of a financial commission as suggested by the Russians on condition that the Russians agree to a truce based upon temporary recognition of existing frontiers, said a Genoa dispatch to the Evening Standard today.

## This Is Attractive Costume for Summer

Copyright Underwood & Underwood.  
This costume is composed of a white felt saucer hat with embroidered veil. The dress is of white and tan duvetyne and embroidered to match.

## Irish Merchant Fleet Plans War on British

WASHINGTON, May 12.—An Irish merchant marine fleet, the first in history, is being made ready for operation to war on British trade and to carry out the boycott on all British shipping lines declared by the National Convention of the American Association for the recognition of Ireland.  
The first ship of the fleet—Irish owned and Irish directed—will make its maiden voyage from the port of New York on June 1, carrying the Irish tricolor and the American flag, it was announced here. The first freighter of the new line will sail within ten days. All of the crews are to be Irish-Americans.  
It is estimated that the trade between the United States and Ireland, which amounted to about \$40,000,000 worth of exports from the United States and \$38,000,000 worth of imports of Irish produce to the United States last year, will be trebled through the operation of the new fleet.  
A drive will be made to attract American tourists to the Emerald Isle and special tourist trips are being arranged by the United Irish lines, which will direct the fleet.  
The project is understood to have the endorsement of the government of the Irish Free State and supporters of the Irish Republic in the United States are subscribing funds to finance the venture.

## Government Reports Area of Winter Wheat

WASHINGTON, May 12.—On May 1 the area of winter wheat to be harvested was about 38,131,000 acres, or 6,446,000 acres (1.45 per cent) less than the acreage planted last autumn, and 4,571,000 acres (10.7 per cent) less than the acreage harvested last year, which was 42,702,000 acres, the crop reporting board, department of agriculture, announced.  
The average condition of winter wheat on May 1 was 83.5, compared with 78.4 on April 1. A condition of 83.5 on May 1 as indicative of a yield per acre of approximately 15.3 bushels, average variations to prevail thereafter. On the estimated area to be harvested, 15.3 bushels per acre would produce 584,793,000 bushels, or 4 per cent less than in 1921. The out-turn of the crop probably will be above or below the figures given above, according to the change in conditions from May 1 to harvest is above or below the average change.

## 'Moffat Tunnel Bill' Signed by Governor

DENVER, May 12.—Governor Shoup today signed the "Moffat tunnel bill" passed by the recent special session of the Colorado legislature. The bill provides for a "bonding district" including all of Denver and parts of Grand, Boulder, Moffat and Rio Blanco counties, that will issue bonds to the extent of approximately \$6,000,000 to construct a tunnel through James Peak, seventy miles west of Denver on the Denver & Salt Lake railroad.  
The tunnel will eliminate numerous steep grades over the continental divide and materially shorten the rail distance between this city and the Pacific coast.  
It is expected work on construction of the tunnel will begin in August.

## Alibi Witness Ready to Testify for Burch

LOS ANGELES, May 12.—With Mrs. Emma Ellerton, an important "alibi" witness for the defense reported to have recovered from her illness sufficiently to appear in court to testify, the re-trial of Arthur C. Burch for the murder of J. Belton Kennedy was scheduled to be resumed in Judge Sidney N. Reeve's court this afternoon.  
Mrs. Ellerton will testify that she saw Burch at a refreshment stand in Long Beach on the night of August 5. It was on that night that Kennedy was killed in Beverly Glen, miles away.

## KILLS WIFE AND HIMSELF

ROCHESTER, Mich., May 12.—Stanley Copeland, 40, shot and killed his wife today and then killed himself in an argument over a divorce suit which Mrs. Copeland had filed against her husband. The shooting was witnessed by Mrs. Charles Bissett, a niece of Mrs. Copeland.

## PEGGY JOYCE IS OPOSED

WASHINGTON, May 12.—The convention of Motion Picture Theater Owners of America has adopted a resolution barring Peggy Joyce from the movies in the United States.

## PUBLIC INVITED TO FORMAL OPENING OF NEW STORE

E. C. Pendroy Extends Cordial  
Bid to Visit Establishment  
On Saturday Night

(Continued from Page 1)  
Give us an expression of your needs so that we may serve you, for it is our intention to render service on a plane with anything in the metropolis. And we want the people of Glendale to make this their headquarters, to use the phones, the public rest rooms, to avail themselves of our information clerk for anything they would expect to find any place. I cannot make too emphatic our desire to do these things, to provide such service for the mutual benefit of all. We are here to make friends and build trade."  
You have in a nutshell now the principles upon which the Pendroy Department store is founded. This policy marks the success of other stores and growing Glendale is going to provide the answer to Mr. Pendroy, it is confidently predicted by keen business observers. Many merchants are planning to attend this opening after their own stores are closed for the evening. They feel this store is a worthy acquisition and sincerely hope to see others open that will be organized along similar lines.

## WOULD FREE PRISONERS

WASHINGTON, D. C., May 12.—Three bills providing general amnesty for all political prisoners now held in federal prisons for violations of the espionage act during the war were introduced in congress.  
Two of the bills were offered in the house while the children "crusaders" looked down from the galleries. The third was introduced in the senate by Senator Ladd, republican, of North Dakota.

## Ford Motor Co. Pays \$32,000 Tax to State

SACRAMENTO, May 12.—The Ford Motor company today paid \$32,000 into the state treasury in back franchise taxes, payment of which had been held up for a period of six years by court action.  
When the tax was originally levied, the Ford company objected to its payment on the ground that they were a foreign corporation, not subject to franchise tax in California. Suit was filed by the state and finally carried to the United States supreme court which ruled against the motor company.

## BOMB PLOT IS FAILURE

CHICAGO, May 12.—"Bomb experts" of the police department rushed to the Packers Machinery and Equipment company this afternoon after three boys in the neighborhood had found what appeared to be a dynamite bomb in the rear of the place. The company had employed millwrights under the Landis award. The stick of dynamite was equipped with a percussion cap and a length of fuse which apparently had failed to burn.  
Your complexion will be fairer, as the days go rolling by. For the quality of Lime-Buck is rarer than any drink you try. It has that real lime flavor made delicious by its blend. When you drink it you will want it until the very end.—Advertisement.

## Oldest Monastery Made Orphanage by America

TIFLIS, Armenia.—The oldest monastery in the world, the Etchmiadzin Castle, near Erivan, was reopened recently, under the protection of the American flag, as an orphanage of the Near East Relief.  
The ancient monastery is historically one of the most important in Armenia. It is the cradle of the Christian faith in Armenia, having been founded by the much-venerated St. Gregory, who introduced Christianity into Armenia in the third century.  
The monastery covers several acres of ground and is surrounded by a massive wall, which has sustained many a siege and has repelled frequent attacks by Kurds, Tartars, Persians and Saracens. At the outbreak of the world war, when thousands of Armenians fled from Turkey, the monastery gates were thrown open to receive them, and here they remained safe for many months. One of the buildings of the monastery dates from the year 350.

## Meant to Slay Wife, So Must Stand Trial

LONDON—Michael John Simpson is awaiting trial for attempted murder of his wife and, according to his own statement to the police, he meant to "do her in" when he hit her on the head with a hammer.  
Simpson gave himself up at the police station, informing the officers that he had killed his wife.  
"I suppose she's dead, ain't she?" Simpson inquired when officers returned from making an investigation.  
"No, she's in an infirmary," the officers replied.  
"What, not dead?" shouted Simpson. "Well, I meant to do her in. She ought to be dead. I want to swing for her. I meant to do it."

## ABOLISH POLICE COURTS?

LOS ANGELES, May 12.—The establishment of municipal courts and the elimination of police courts will be proposed in a charter amendment which the city council is to be asked to submit to a vote of the people during the coming state elections, it was learned at the city hall. Recent charges before the police commission that at least two of the police courts have in the past refused to co-operate with the police department coupled with the fact that while police judges are regularly elected city officials the municipal government has no control or regulatory powers over them, are declared to be responsible for the renewed activity for the establishment of municipal courts.

## New Device Removes Agony of Dentistry

LONDON—Intending visitors to the dentist in the near future will have no fear of that person if the gazotherm, the invention of a French scientist, is approved by the dental profession.  
The apparatus, devised by Dr. C. Guebel, Parisian dentist, renders the sufferer oblivious even to the prodding of pointed instruments and the grinding horror of the drill on a decayed tooth, yet without depriving him of consciousness.  
Oxygen is projected by the gazotherm upon the gum first at a temperature equivalent to blood heat, and gradually the temperature is lowered until the tissues become insensible. When the work is finished the process is reversed, and the flesh is gradually brought back to normal.

## SEMENOFF ASKS CHANCE

WASHINGTON, May 12.—The demand of counsel for General Gregorie Semenov, former commander of the anti-Bolshevik forces in Siberia, that he be afforded an opportunity to answer his accusers before the senate labor committee, was renewed in a letter which Senator Borah, Republican, of Idaho, the committee chairman, received from them.  
The letter described Semenovoff as a soldier of bravery and distinction and declared that he had been denied an opportunity to cross-examine his accusers at the time that their accusations were made before Borah's committee.

Champion Eater Dead In Hungary; Wt. 454

LONDON—The reputation of being the world's champion eater was enjoyed by a lawyer named Bela Vezsenyi, who has died at Kecskemet, a small town east of Budapest. Vezsenyi first attracted attention in Paris, later joining Barnum's circus, where he won the first prize for the largest meal ever consumed at one sitting. His early breakfast usually consisted of forty sausages and seven pounds of Hungarian stew. At 10 o'clock he would devour five pounds of bacon and three loaves of bread. He weighed 454 pounds.

Filipinos Want Church As Historic Museum

MANILA—To buy the Barasonin church of memory connected with Aginaldo and meetings of the Congress of the Philippine Republic during the insurrection of late Spanish and early American occupation days is the purpose of a resolution introduced into the Philippine legislature recently. The Barasonin church is at Malolos, a village not far from Manila, and is owned by the Catholic church. It is proposed to make a museum of the building.

QUICKER ACTION DESIRED

WASHINGTON, May 12—In order to bring the government's revenue collecting machinery closer to the people so that the work may be done more quickly and tax disputes may be adjusted with greater celerity, the treasury has decided to establish four bureaus in the far west.

It was announced at the treasury department that these auditing bureaus would be established as an experiment at Seattle and Tacoma, Washington; Portland, Oregon, and San Francisco.

MUCH WHISKEY IS BURNED

LOUISVILLE, May 12.—Eight hundred and nine barrels of whiskey, valued at approximately \$1,618,000, were consumed by fire of undetermined origin which swept the Smith distillery at Cheago, Marion county, Kentucky, Sunday night, the offices of the internal revenue collector, was notified today, by the government inspector at the plant. There was no fire fighting equipment available to combat the flames.

GAS TANKS ESCAPE BLAZE

TOPEKA, Kans., May 12.—Two huge gasoline tanks were within thirty feet of a fire which caused \$40,000 damage to the Sunflower Oil & Supply company's warehouse here today, but escaped the fire. Locomotive sparks were said to have caused the blaze.

ARREST MOVIE DAREDEVIL

SAN FRANCISCO, May 12.—Lee Barkley, alias Lambert Brick, ex-cov puncher in Oregon and Montana, former daredevil rider in the movies, and a marine in the late world war, was arrested at a local hotel here at the request of the Columbus, Ohio, police, who charge that he was one of five holdup men who held up the Hilltop branch of the Citizens' bank there and escaped with \$83,000. Barkley denies the charge and said he would return to face the accusation, waiving extradition.

RUSSIA'S REPLY ACCEPTED

GENOA, May 12.—The delegation representing the British empire in the international economic conference has accepted Russia's reply as the satisfactory basis for a European truce, it was officially announced today.

### SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—Advertisement.

### RECORD QUANTITY OF MAIL MATTER IS DISPATCHED

#### Forty-three Bags of First and Second Class Matter Sent From Here Thursday

Forty-three bags of mail, occupying two freight trucks, were dispatched yesterday by the Glendale postoffice—a record quantity of outgoing first and second class matter.

There were twenty-three packets of first class mail and the balance bulkier second class matter. A total of 33,000 cancellations were made by the machine at the postoffice Thursday and several thousand by hand stamp.

Business has increased in some departments almost 100 per cent, it is stated, in a period of less than a year. While the postmaster general has not sent a word of commendation to the local office for boosting Uncle Sam's business, there seems to be no question but Glendale is a first class station.

Think of the surprise the railway mail clerks must have when the Southern Pacific trains stop at the antiquated depot and take on enough mail to keep them busy from here to San Francisco.

The Harrower Laboratory is responsible for more or less of the heavy outgoing dispatches, while the Los Angeles stores, provide a lot coming to Glendale, for which this office receives no credit.

Postmaster D. Ripley Jackson and employees are hoping for the early completion of the new quarters so that distribution may be facilitated.

### 'Zoning Primer' Being Released by Realtors

A "Zoning Primer," discussing the various elements of proper zoning of cities, has been prepared for the department of commerce and, at the request of Secretary Herbert Hoover, will be released to the press through the local boards of the National Association of Real Estate Boards.

Mr. Hoover, in requesting the national association to perform this service, has recognized the fact that realtors are taking a leading part in bringing about zoning of the respective communities.

In a letter to Irving B. Hiatt, president of the national association, Mr. Hoover said that he considers the primer a valuable piece of work. He says: "I believe that proper zoning is of the highest importance in protecting the equities of home owners in their property and for the well ordered civic and industrial development of the cities and towns of the United States."

The primer was prepared for the department of commerce by an advisory committee appointed by Secretary Hoover. The committee is made up of eight men who are considered experts in the fields of zoning, housing, realty, architecture, civic development, and engineering. It is a crystallization of months of thought and discussion of this important subject.

The primer is made up of nine chapters. The first chapter of the primer will be released to the press this week.

### CHINESE MAY RESUME WAR

LONDON, May 12.—Renewal of civil war is threatened in China, according to advices from Peking today. They reported that the Manchurians were preparing to take the field in a new campaign against Peking and the city's guardian army under General Wu Pei Fu.

### 'Japanese Afternoon' Held by Women's Union

An all-day session of the Women's Union of the Baptist church was held yesterday, with Mrs. E. E. Ford, president, in charge. The morning hours were spent in sewing at the church parlors after which luncheon was served. The members then adjourned to the home of Miss E. Bohannon, 314 North Maryland avenue, where a Japanese program was enjoyed.

The large attractive rooms of the Bohannon home had been most artistically decorated with hanging baskets of wistaria and branches of cherry blossoms. Japanese vases, pottery and lanterns were also used to great advantage. A booth occupied one corner where articles of Japanese ware were placed on sale. Following the business session Mrs. F. H. Boynton presented an interesting program, where every detail was carried out in Japanese manner. Mrs. Boynton recently returned from Japan and many of her choice possessions helped to make the day the success it was. Many of the decorations were loaned for the occasion by the courtesy of the Japan Art & Tea company of South Brand boulevard.

Miss Hirooka was present and spoke on the Japanese work being done in Los Angeles. Little Ethelwyn Kent gave a Japanese recitation, using small Japanese articles to illustrate parts of her recitation about the customs of the Japanese children. She was later presented with a small Japanese tea set. Mrs. G. H. Rowe told of the Japanese work being done in Glendale. Mrs. H. C. Candee of Huntington Park gave two Japanese piano numbers, followed by a charming Japanese love song sung by Mrs. Park Arnold and accompanied by Mrs. Ray Bentley. Tea and Japanese rice cakes were served by Japanese in kimono costumes.

### Excursion Rates to Beaches on P. E. Line

The restoration of the former Thursday excursion fares of 49 cents for adults and 29 cents for children during the coming summer months from Los Angeles to the nearby beaches was announced today by O. A. Smith, passenger traffic manager of the Pacific Electric railway. This special round trip fare will be made effective June 22 and continue each Thursday until September 14, inclusive. It will apply to Santa Monica, Ocean Park, Venice, Playa del Rey, El Segundo, Manhattan Beach, Hermosa Beach, Redondo Beach, San Pedro, Wilmington, Long Beach, Seal Beach and Anaheim Landing.

According to D. W. Pontius, vice president and general manager, this is the first time these open reduced fares have been published since the summer of 1919. During the summers of 1920 and 1921 the equipment situation prevented the company from making these special fares effective. However, the receipt of thirty new all-steel interurban cars last fall, which were ordered two years ago, and the purchase of fifty additional cars recently that are expected to reach Los Angeles about July 1, at a total cost for the eighty cars of \$2,000,000, has made it possible for the Pacific Electric to restore the old privilege. It is stated that the original purpose in granting these reduced rates, and which is still the controlling factor, was to permit the women and children in families of very moderate means to spend a day each week during the hot summer months at the beaches for rest and recreation.

### Louis T. McFadden to Be Convention Speaker

Louis T. McFadden, congressman from the fourteenth Pennsylvania district and the author of the constitutional amendment to prohibit the issuing of additional tax exempt securities will deliver the principal address of the convention of the National Association of Real Estate Boards, to be held in San Francisco, May 21 to June 3.

Mr. McFadden will discuss the financial situation that has been, to a large extent, brought about by the flooding of the country with securities not subject to taxation and he will report the situation in regard to the legislative measure of which he is the author and which is supported by the National Association of Real Estate Boards. Mr. McFadden will also discuss future co-operation of the national association not only in assisting members of Congress in the consideration of legislation which has to do with the economics of land and real estate but in rendering effective service to other governmental agencies.

The national association has been able to render material and effective service to the Department of Commerce and has frequently been called on for specific assistance by Secretary Hoover. Service has also been rendered the Department of Internal Revenue and to other government organizations, particularly during the war period.

### Missourian Champion At Eating Raw Eggs

LAMAR, Mo.—Missouri is a state of "champeens." There's the champion horse shoe pitcher, the champion hay pitcher, the champion hog (quadrupled), mule, pancake eater, rail splitter, and almost, one might say, the champion "hootch maker." Now comes a new "champeen"—Logan Rector, whose modest claim to fame lies in his ability to consume raw eggs.

At a recent demonstration before the Owls Club Rector, to win a \$5 wager, swallowed six dozen raw eggs in twenty minutes.

### 'BUCK' JONES BUCKS AT 'BUCK'; BUCKS 'BUCK' AWAY

#### Fox Star Now Known by Name of 'Charles,' but Reason for Change Is Mystery

Here's news! Buck Jones, the famous Fox star, has dropped the "Buck," and has been formally christened "Charles." So Charles he will be henceforth. As Charles he will be seen at the Glendale Theatre today in "Riding With Death," a William Fox feature photoplay. Jacques Jaecard is the author of the story, writer of the scenario and director of the production.

Charles Jones—it's hard to omit the "Buck," but it must be done—enacts the role of a Texas Ranger, and those who have seen the picture declare his name "Dynamite" to be a fitting one. The story deals with a struggle between the Ranger, at first single-handed, and a crooked sheriff with his henchmen. It is a tale of love, of wonderful friendship, and of fast and furious action, it is said.

Harry Sweet gives a new version of "A One Horse Town" in film comedy, while Fox News and the Pathe Review complete the program. The matinee today is given over to the Rotary club entertainment.

Tomorrow vaudeville will feature the matinee and all who possibly can attend the matinee are urged to do so.

### A. G. Smith to Build 10 Homes, Ivanhoe Hills

A. G. Smith, a Glendale contractor, succeeded yesterday to the scenic grandeur of Ivanhoe Hills. Not only did he buy a homestead for himself, but also nine more—all of which front Glendale boulevard.

On these homesites Mr. Smith will start construction within ten days of ten high-class homes, which he has authorized the Ivanhoe Realty company to resell, for a small initial payment and thereafter monthly payments like rent, it is announced.

Mr. Smith states that he expects every one of these homes will be sold before they are half completed. "They are only ten minutes—three miles from Broadway," he said, "and there isn't any question in my mind, that persons now living in Glendale and working in Los Angeles will sell their present homes at a nice profit and buy one of those we will build."

From these homes to be built by Mr. Smith it will be but a short walk to the shores of Silver Lake, the largest, and said by many to be the most beautiful body of water in Los Angeles.

Another feature which make these homes attractive as investment is the fact that probably the largest street development program ever advanced by the city of Los Angeles will center around them, commencing within ninety days. It calls for the paving of Childs avenue and Hyperion from Sunset boulevard through Ivanhoe Hills, to Rowena and beyond, and also for the paving of Rowena avenue.

### Dr. J. A. Ramsey to Talk at Conference

"Flesh and Spirit" is to be the subject tonight at the Presbyterian church of Dr. J. A. Ramsey before the Victorious Life Conference.

Rev. Robert C. McQuilkin spoke last night with special reference to the young people present. Malcolm Huddy sang.

Any written questions relating to the themes before the conference may be brought in Saturday afternoon, according to Rev. W. E. Edmonds, and Rev. R. C. McQuilkin will hold a "question box."

His recent tour in Central America will be the subject of Rev. McQuilkin's discussion Saturday night.

The final meetings of the conference, Sunday afternoon and evening are to be upon the subject, "The Coming of the Lord."

### NO BRITISH LOAN TO RUSS

LONDON, May 12.—The British government will not make a loan to Russia at this time, it was officially revealed.
